RUSH PAST KLISURA AND ON TO VALONA

Greeks Rejoicing Over Fresh Victories in Albania, While Spearhead of Army's Drive Is Within Thirty Miles of Next Big Objective—More Prisoners and Munitions Are Taken

ATHENS, Jan. 10 (AP).—While Greeks at home rejoiced in the streets over fresh victories in Albania, the forces at the front today sent back word they had rushed past captured Klisura toward Valona—last important port in Southern Albania still held by the Italians.

Greek troops occupying Klisura found it had been burned and pillaged, a general headquarters communique said tonight.

Most of the townspeople had deserted the town, but 600 Italian soldiers were taken prisoners, and four guns, some tanks, more mortars and automatic guns were captured, the communique said.

The Greek air force was reported to have bombed and machine-gunned Italian positions without losing a plane.

DISORDERLY RETREAT

With the spearhead of the Greek drive in the Klisura sector only about thirty miles from Valona, Italian troops were said to be in disorderly retreat.

As a result of Klisura's fall, military observers predicted the Italians probably will be forced to abandon Tepeleni, fifteen miles west of Klisura on the way to Valona.

The Greeks met stubborn resistance at Klisura and said the Italians apparently attached considerable military importance to the town, for they brought replacements and installed them in prepared positions on the Klisura heights.

King George and others high in the Government appeared at windows and were hailed throughout the country.

It was a few miles beyond Klisura in the direction of Berat that the

CHURCHILL AND HOPKINS MEET

Roosevelt's Personal Envoy Says U.S. Production to Be Stepped Up

LONDON, Jan 10 (CP) — Prime Minister Churchill today conferred for a long time over a luncheon table at 10 Downing Street with Harry Hopkins, President Roosevelt's personal envoy to Great Britain, to start what Hopkins later described as discussions on "matters of mutual urgency in our two countries."

To the press, the American emissary predicted that United States production of war materials would reach its peak in approximately another year, and declared flatly:

"I have no misgivings about the outcome of this war."

"There is going to be a united and altogether successful effort in the production of defence materials to be used by our allies, Great Britain, Greece and China."

HAS LITTLE COMMENT

To most of the questions fired at him, Hopkins replied "No comment."

Asked whether there is to be an immediate speed-up in production of war supplies as compared with the long-range effort, he replied: "The answer is very much in the affirmative."

He declined to predict how long the war will last.

Hopkins arrived in London last night at the start of a heavy air raid, but brushed that experience aside today and said: "Nothing is less important than my impressions of air raids"

NEEDS ARE ESTIMATED

Man Power Requirements This Year for War Placed At Over 200,000

OTTAWA, Jan. 10 (CP) — Estimated man power requirements of Canada's armed forces in 1941 exceed those of industries engaged in the production of war materials, according to the report of the Inter-Departmental Committee on Labor Co-ordination made public today.

The report was used as a basis for the plan of pre-employment training in skilled trades announced by Dr. Heyte Bruce, deputy minister of labor, on behalf of Labor Minister McLarty.

The increase in the personnel of the armed services during the year as submitted by responsible officials is estimated 100,000 wayrs in industries ancillary to war plants, such as railways, mines and service occupations.

The estimates for the armed forces, it was learned from other sources, are based on possible requirements. The 40,000 estimate for the army, for instance, would take care of reinforcements for existing formations up to strength, additional line of communication troops needed in consequence of the formation of a Canadian Corps, development of the armored corps now established at Camp Borden, and possible enlarge-

Four Sent to Hospital When Hit From the Rear—Driver Vanishes From the Scene

CALGARY, Jan. 10 (CP).—A motorcycle crashed into the rear of a group of pedestrians on Centre Bridge here today, bowling over a dozen men like ninepins and sending four to hospital.

The injured were Sergeant W. P. Nicholson, Seaforth Highlanders, broken leg, cuts and bruises; Quartermaster-Sergeant P. Harris, Seaforth Highlanders, cuts, bruises and shock; Sergeant J. W. Cathro, R.C.A.S.C. cuts to the head, bruises and shock; Corporal J. Douglas Peatroth, Highlanders, cuts, bruises and shock

Mystery surrounds the fate of the motorcyclist, who apparently left after the crash. Military authorities probing the accident were checking up on army motorcycles to see if any machines were missing

Details of Training Plan for Industrial Workers Complete

Courses to Be Provided for 100,000 Men a Year For Skilled Work in Canadian Industry, Army and Air Force

OTTAWA, Jan. 10 (CP).—In a move towards mobilization of Canada's labor power, the Government today announced a plan to train 100,000 men a year for skilled work in industry, the army and the air force.

The programme calls for three- and six-month training courses in mechanical and vocational schools and in industrial plants with the trainees drawing pay while in training.

Dr. Bryce Stewart, deputy minister of labor, speaking for Labor Minister McLarty, told a press conference it was estimated 50,000 trained men could be turned out in vocational and industrial schools during 1941

BANDLE APPLICATIONS

Applications for training under the plan should be made to the Minister of Education in the province or to the principal of a technical or vocational school in which training is given.

Italian Warships At Messina and Naples Attacked

Series of Bombs Dropped Across Cruisers in One Harbor and Battleship Believed Hit in Another Port—Wharf, Docks and Oil Storage Plants Struck

CAIRO, Jan. 10 (AP)—British pilots dropped several tons of bombs on the harbor of Messina, Sicily, last night and a whole series of explosives fell across Italian cruisers, the Middle East Command announced tonight. The vessels attacked laid down thick smoke screens. Damage done could not be observed.

In another announcement the Royal Air Force said that bombs fell "on or very near" the stern of an Italian battleship of the Littorio Class, 45,000 tons, "causing a dull red glow" during a raid on Naples on Wednesday night. Palermo, on the island of Sicily, the object of a Wednesday night raid, received another call last night and bombs straddled the wharf, causing explosions.

CROWN PRINCE VISITS OTTAWA

Heir to Norwegian Throne Confident That Germany Will Be Beaten

OTTAWA, Jan 10 (CP)—Confident of the ultimate restoration of his heritage, Crown Prince Olav of Norway said tonight that Germany would be beaten "if all of us who do not want them to win do their part."

In Ottawa with his wife Princess Martha, Prince Olav is a guest of the Governor-General and Princess Alice, and will go next week to visit Norwegian Air Force units being trained in Toronto.

The thirty-seven-year-old heir to Norway's throne talked freely with a group of correspondents who called upon him at Rideau Hall.

MILITARY OBJECTIVES

He said it was "not pleasant" to know that British flyers were bombing German-held Norwegian towns but his information was they were attacking only military objectives and "I am told that our people are coming out of these bombings all right and they are glad to hear the British planes overhead."

The end of the war would bring reconstruction throughout the world. He did not care to offer any suggestions, but agreed that Norway Sweden, Finland and Denmark, if united, would make a powerful union.

The Prince expects to reign his sixty - eight - year - old father in London next month.

SEND SHELLS INTO TOBRUK

British Batteries Start Bombardment of Libyan Base —Too Early for Assault

CAIRO, Jan. 10 (CP). Britain's batteries in Libya shelled Italian-held Tobruk today in the initial blow of an attack patterned after that which reduced Bardia fifty miles to the east, five days ago.

Nearly out off by an encircling movement of British mechanized units fifty miles to the west Tobruk was rapidly being surrounded by British land forces, while to perimeter of outer defences was battered by artillery rolled into place from Bardia.

The British command stating it would take some time to bring up full siege cannon and was not ready early to speak of an assault.

FACES TRIPLE OFFENSIVE

The greatest town of the Bardia pattern is followed—faces not only a heavy attack from land, but every bombing from the air and shelling from the sea.

Such a triple offensive reduced Bardia in eighteen days and resulted in the capitulation of 36 thousand of more than 30,000 officers.

While Tobruk was being put under siege, the British Command began to direct a correlative across the border of Libya to cut off the shipping of Cirenaica.

That would be the British advance guard on the Mediterranean coast of Italy's colony, some miles from the Libyan-Egyptian frontier and beside both Tobruk and Bardia.

ACTION IN EAST AFRICA

In a series far from the Libyan front, British land forces were reported advancing almost at will across Italy's African Empire.

The British authorities announced their forces had entered Ruea Kenya crossroads junction a few miles south of the Ethiopian border, and the Q Wau, in the Italian-Italian Somaliland border, now had been abandoned by the Italians.

Ruea is in the Moussa sector which the Italians have held for months. There are more than 6,000 Italians in the Moussa sector which the Italians have held for months. There are more than 6,000 Italians in the Ruea area, reported isolated in the Moussa sector, with a high of 44,000.

The R.A.F. said the order was among documents taken from the Ruea general staff at Bardia when it was captured last Sunday.

RUSSO-GERMAN PACTS SIGNED

Russians to Exchange Food And Materials for Industrial Equipment

MOSCOW, Jan 10 (—Soviet Russia agreed today to send to wartorn Germany quantities of food especially grains, in a significant collaboration described as an enlarged economic agreement.

Russia also will furnish industrial raw materials and oil products in exchange for German industrial equipment under the new treaty, which runs until August 1, 1941.

Amounts were not specified, but Tass, Soviet news agency, claimed the new pact provides for deliveries considerably exceeding the level of the first year of operation" of an agreement which was signed last February 11 and at which time the present programme is an enlargement.

ONE OF FIVE PACTS

The trade agreement was one of five documents signed here today. The others dealt with such subjects as mutual border relations and settlement of property claims and negotiations connected with Russia's absorption of Latvia, Estonia and Lithuania.

The German news agency announcing the treaties hailed the trade agreement as "initiating the greatest grain deal in history."

ON WAY TO ARGENTINA

BUENOS AIRES, Jan 10 (—Informed sources reported tonight that a Soviet trade mission was en route here to negotiate a "grain trade agreement" based mainly on the export of Argentine grain to Russia.

Grain dealers here expressed interest in a British announcement today that Germany had made with the Soviet the "greatest grain deal in history."

LONDON, Jan 10 (CP) — By Leslie Peach, Canadian Press Staff Correspondent in the Middle East—Preparations for the capture of Tobruk are proceeding and British mechanized forces are remarkable operating west of the port. Tobruk is not yet completely surrounded, but it is not expected the Italians will put up a determined defence. There are, however, rays The Times Cairo correspondent, to raise the impending siege order.

The R.A.F. bombers, with the help of the Royal Air Force have forced the Italians out of Gubba, on the Bardia-Tobruk frontier, and are pursuing them.

A German Direct to Elire is seen by The Times as a new move dependent in the Nazi propaganda in that Great Britain is preparing an invasion of Southern Ireland from Ulster. The Nazis threaten to invade Eire if it aids the Italians—to prevent it, no doubt, as they protected Norway and Holland.

One German radio station gives what purports to be an interview with an Irish prelate, who is allowed to have said the British were bent on the destruction of Eire.

The German trick of accusing others of doing what they themselves are plotting hardly deceives even the Germans themselves now adds The Times' diplomatic correspondent.

Probably the object is to frighten the Irish, and to prevent them drop ping in Dublin and elsewhere may have the same idea behind it. Nevertheless to say the British Government has not the remotest intention of invading Eire

The Japanese press which has assumed that Great Britain's invasion and Belfast are probable, began a surprise from Japanese" business" with evacuated interpreters from London recently and returned to Tokyo. They tell of almost daily air-high-average economic casualties and continuation of the ra and find no damage of importance.

Britain hatred of German oppressors now takes the form of covering Berlin in flowers. Many people with inscriptions praising the work-derful bravery of the British Royal Air Force. A typical one reads: "The three Belgians—Belgium to occupy, Belgium to defend, Belgium to liberate."

The Germans are still expecting the Poles. The Socialist leader Niedzialkowski has issued an order to all members of the political underground in Poland to be ready to take up arms against the Germans in Poland, Russia and Germany. The order is dated January 1, 1941.

LARGEST SCALE OFFENSIVE LAUNCHED BY R.A.F.

Night Forays From Coast of Norway to Interior Of Germany and Southern France Followed By Mightiest Daylight Assault Ever Made by British Air Force

Hundreds of British Planes Strike at Channel Areas

LONDON, Jan 11 (Saturday), (CP)—Royal Air Force bombers once more blasted at Brest naval base in Germany-occupied France last night, an official announcement said today.

LONDON, Jan. 10 (CP).—In the mightiest daylight offensive ever loosed by the Royal Air Force, fifty British bombers and a swarm of 500 fighter planes delivered a ground shelking assault today over 1,000 square miles of Northwestern France.

The Air Ministry itself announced in general terms unrelieved that more than 100 fighters were involved but unofficial observers of this great action said the fighters outnumbered the bombers by ten to one.

They struck at the Channel Straits areas of Calais and Boulogne and elsewhere upon the heels of the Nazi invasion effort, sweeping the German positions with bombs and machine gun fire—the latter from eight-gunned fighter craft which formed the biggest escort ever to take off from Great Britain

Three of the new American planes which rose to challenge the battle were shot down, the Air Ministry said, and five more probably destroyed. Another was lost that on the return trip.

For the loss of only a million dollars plus expensive life. If we were observed upon a series of unobtrusive blows at an industrial area giving death to within 200 feet of the observers and upon civilian populace and military installations.

WHOLE COAST SHAKES

The southern English coast-lands to thirty miles from the coastal targets shook under the blows.

There was one attempted interception by German fighters, but it failed to materialize when the Nazis refused battle.

Thirty-six bombers and escorting fighters returned safely from the attack.

U.S. Arms Loan Bill Would Confer Great Powers on President

Roosevelt Asks for Early Enactment of Measure —Opposition Forces Object to Extent Of Authority Given One Man

WASHINGTON, Jan. 10 (AP).—The United States Administration Bill to lend war supplies to Great Britain was introduced today, to be denounced at once as a "streamlined dictatorship of war." by opponents already organizing for a supreme effort to defeat the measure or narrow the tremendous powers it would confer upon President Roosevelt.

As the legislation was introduced in the house, it would be up to the president to say at what point he would be done—and how far he must be done—power to get it. A done must be lodged in accordance.

Inspection of the measure's terms ha t the opponents of the Administration's foreign policy readmitting it both on the ground of the power to be conferred and because, they contended, it would lead this country into the war.

While practice was less favorable than they had expected, Administration leaders still professed them-

A policeman said the fire might have been caused by sparks from a welding apparatus being used to fasten the bombers of the deck.

Trade Training Plan For Army Lads Here To Begin January 15

Centres in Victoria, Nanaimo and Vancouver Will Give Three Months' Courses of Instruction To Suitable Men on Voluntary Basis

D[illegible] programme of trades training for suitable young men already serving in the Canadian Army were announced yesterday at Military District Headquarters, Work Point.

The plan, which will go into operation here and in Vancouver and Nanaimo on January 15, has a two-fold purpose: To help solve the army's problem of finding a sufficient number of trained tradesmen to meet the needs of modern warfare, and to give soldiers useful training that will be of assistance to them in readjusting themselves to civilian life at the end of the war.

The training programme, which will provide three months' courses of instruction for selected men, has been worked out by the Department of National Defence in collaboration with the Dominion-Provincial Youth Training Department. At present it is open to men already serving in the army, but it is probable that the training privileges will be extended later to men serving in Reserve Force (the former N.P.A.M.) units and trainees under the Dominion compulsory training plan.

INCREASE EFFICIENCY

The scheme is calculated to increase the efficiency of the army by improving the qualifications of trained tradesmen and by making tradesmen of many other young fellows with no previous training, but who show aptitude. It represents the Defence Department's first concrete effort to come to grips with the trade training problem.

On a purely voluntary basis, the training programme is being taken up very enthusiastically by the troops in the Victoria area and elsewhere in Military District No. 11, and there has been a ready response to the call for applications for training.

Qualifications for selection for the three months' training courses are health, youth, intelligence, and interest in and aptitude for the particular field of training chosen. Men chosen will be taken from their units, given training, and then returned to the units.

Many of those applying in Victoria have had some previous trade experience; many others have had none. An examining board consisting of Lieut.-Col. G. G. Aitken, officer commanding the District Depot, Lieut.-Col. C. J. Loat, second in command of the depot, and Lieut. W. G. Black, C.O.T.C., has been busy for some days interviewing applicants.

CENTRES IN B.C.

Training centres in British Columbia, and the trades to be taught there, are as follows:

Victoria—Victoria West School, Central Junior High School, Victoria High School and Kings Road School; motor mechanics, carpenters, concreters and fitters.

Vancouver—Vancouver Technical School; motor mechanics, carpenters, concreters, fitters, coppersmiths, electricians, and plumbers.

Nanaimo—Motor mechanics and carpenters.

The Dominion-wide plan embraces courses of training in a complete range of more than forty trades, and suitable applicants to learn trades not taught in their own areas will be sent to other military districts to take the necessary training, and will be returned to their respective units later.

Under the present set-up in British Columbia, there are places for 305 men, to be divided between the three centres. When the first group of men complete their trades training, their places will be taken by another group. While undergoing training, the soldiers will continue to occupy their usual billets, and will be given transportation to the training centres, so that they will not be put to any expense.

NO TOP-HEAVINESS

Care is being taken to avoid top-heaviness in any particular trade. For example, in Victoria there is a preponderance of young men seeking to train as motor mechanics, and the examining board gives careful consideration to each case, often suggesting alternative trades—in many cases to the advantage of applicants who show aptitude for more highly skilled trades.

Lieut. Black, representing military headquarters, is directing the scheme in Military District No. 11, in close collaboration with Col. F. T. Fairey, director of technical education for the Province of British Columbia.

ASK OPINION OF PROPOSAL

Arena Committee Seeking Endorsement of Rink at Horse Show Building

Do Victoria's citizens want an ice arena in the Horse Show Building at the Willows and, more particularly, are those who pledged their support to the last arena campaign here in favor of the plan? That is the question which arena committee officials puzzled over in their minds at a meeting in the Chamber of Commerce yesterday.

Before the committee can make any definite plans, it must ascertain the feeling of those who previously signified their intentions of contributing towards an ice rink in Victoria. Although questionnaires were sent out to all previous subscribers, only about 20 per cent have returned the letters with their answers. It is true that the great majority of those who did answer the questionnaire said they were in favor of the Horse Show Building plan, but the opinion of the majority is essential if the project is to go through. The approximate amount of pledges and cash in the last campaign was $36,000.

All persons who pledged their support to the financial campaign for the arena last Spring, and who have not received questionnaires, may secure same by calling at or telephoning to the office of the Chamber of Commerce, it was decided yesterday. The importance of doing this within the next few days, however, was stressed.

TO COST $35,000

A few statistics about the plan to convert the Horse Show Building into a first-class ice rink were announced by the committee. The ice plant will cost some $20,000; removing the posts so that visibility will not be impaired, $4,000; installation of dressing-rooms and showers, $4,000, construction of a portable floor, $2,500; incidentals and alterations, $2,500; total, $35,000.

The existing wall round the ring which is seven feet high, will be lowered to a height of four feet, which is the regulation height for hockey. By removing four of the existing posts on one side, the visibility will be made entirely satisfactory. Present seating accommodation is 2,200 and there is space for another 2,200 on the other side, if required.

The building is located three miles from the centre of the city. Adequate bus and street car transportation is obtainable. The residential area in this district is growing rapidly.

PLANT COULD BE MOVED

If necessary, the ice plant could be moved to a new location at a future date if it was desired to do so. If the opportunity is not seized at this time, the committee feels that Victoria will not have an arena for the duration of the war, or for several years following it.

The portable floor would provide an ideal auditorium for large conventions, entertainments, charities, etc.

"On a very conservative estimate, the project would be a financial success. Skating amateur hockey, carnivals and concessions could be featured and a fund set up from surplus, profits to accumulate for a future auditorium when the time was opportune," the committee said.

As one Victoria firm is already sponsoring a hockey team in the Nanaimo league, it was felt that a local, and even an intercity league would find ready support among Victoria hockey fans.

KLISURA TAKEN BY GREEK ARMY

Continued from Page 1

Italians were withdrawing in disorder. Klisura stands at a crossroad—one leading to Berat and Durazzo, the other to Valona.

EMPHASIZES IMPORTANCE

Emphasizing how important the Greeks considered the taking of Klisura, a spokesman said:

"The Italians have concentrated as many forces as they could in determination to frustrate at any cost the plans of the general staff."

The spokesman, referring to a Rome High Command communique, which spoke of "local action" on the part of the Italian army, said:

"Here's what happened. Our attack units pushed their lines forward and occupied heights long fortified by the Italians, captured seven Fascist officers and 450 men, small calibre mortars, machine guns and automatic weapons of all kinds, and other items not even counted yet.

"The enemy suffered heavily from our fire in this 'local action,' as shown by the number of dead left in the positions we captured and the Italian retreat that followed."

STEADILY REINFORCED

The Italian army in Albania still is being reinforced steadily, he said, and new fortifications are being built in the determination to try to halt the Greeks.

The spokesman also revealed a raid by 200 Italians in motor launches on January 8 on the Aegean Island of Kinaros.

"There are only two people living on the island," he said. "The Italian raiders searched their huts and departed the next day."

R.A.F. LAUNCHES HUGE OFFENSIVE

Continued from Page 1

with whole sticks of bombs dropped. Fires were set off and a large ship in the harbor was squarely hit.

A returning pilot reported an immense explosion followed a hit by a salvo of bombs near a drydock and said that a harbor building "literally disintegrated and a mushroom of black smoke rose to a height of several hundred feet."

MANY TARGETS HIT

Results elsewhere:

In Germany—Synthetic plant at Gelsenkirchen left erupting in explosions and fires; factories, blast furnaces and railways attacked in the Ruhr; the inland ports of Duisburg—Ruhrort and Duesseldorf again bombed.

In Holland—Docks at Flushing, a major port, attacked, along with an oil storage plant at Rotterdam.

In France—Brest hit again; Dunkerque and Calais as well.

In Norway—A railway bridge near Egersund "severely damaged."

While last night's attacks on the German oil stores at Gelsenkirchen and Rotterdam were overshadowed by the fury of the day's assaults, the Air Ministry's unusually-detailed announcements of the results suggested that in the official view there were in the whole night-and-day campaign no more important objectives.

A PALL OF SMOKE

Over Gelsenkirchen, it was stated, the weather was thick. The factory buildings were hit by many high explosives, and soon the heavy black smoke of burning oil rose over the whole scene.

After the attack on oil stored in Rotterdam harbor, pilots reported fires visible from miles away.

At Essen, site of the Krupp armament works, fires were started.

The slowly gathered details of the day's raids in France as announced by the Air Ministry tonight implied, but did not directly announce, far heavier German plane losses on the ground than those craft shot down in combat.

BURNT IN FOREST

A forest near Calais in which Nazi planes had been hidden was set aflame.

The ministry said that when British pilots attacked gun posts and troops near Wissant there was no attempt at interception by German fighters.

A Polish pilot flew at ground level across an airdrome, opening his machine guns at a number of grounded German planes, the ministry said. He reported shooting down a Nazi Messerschmitt fighter as he climbed away.

Another pilot told of spraying four German patrol boats with machine-gun bullets, and he, too, reported seeing a Messerschmitt going down, with smoke trailing, into the sea.

OFFICIAL COMMUNIQUES

The Air Ministry issued the following communiques Friday:

"It is learned in London that a force of Royal Air Force bombers, strongly escorted by fighters, made an extensive sweep over the Pas de Calais at midday today.

"Several enemy airdromes were bombed and machine-gun attacks were made from low-level on military installations and control vessels.

"Only a few enemy fighters were encountered. Three were shot down and a number damaged on the ground. None of our aircraft is missing, but one fighter crashed on returning, the pilot being injured.

"The synthetic oil plant at Gelsenkirchen was the main objective of the R.A.F. attacks last night.

"Though a ground haze at times made it difficult to observe the results fully, explosions and fires were seen in the oil plant.

INLAND OBJECTIVES

"The inland ports of Duisberg-Ruhroht and Duesseldorf and a number of other objectives in the Ruhr, including factories, blast furnaces and railways were also attacked.

"Elsewhere, an oil storage plant at Rotterdam and docks at Flushing, Dunkerque and Calais were bombed.

"Aircraft of the Coastal Command made a successful attack on docks at Brest and also severely damaged a railway bridge near Egersund, on the Southwest coast of Norway.

"Two of our aircraft are missing."

ARMS LOAN BILL BEFORE CONGRESS

Continued from Page 1

selves confident of more than enough votes to enact the bill without serious change. How long it might take to get it into the statute books, however, was another matter.

There was much comment favorable to the bill:

Senator Lister Hill (Democrat, Alabama) called it "the best and most feasible plan" and said it will "mean speedy aid" for Great Britain.

Senator Robert Taft (Republican, Ohio) assumed a leading position in the opposition with a statement that the bill "combines all the faults of the worst New Deal legislation, including unlimited delegation of authority and blank-cheque appropriations." He added:

"In addition, it authorizes the President to make war on any nation in the world, and to enter the present war if he wishes to do so, as he apparently does."

SEES TOO MUCH POWER

Typical of the reaction of an apparently sizable group of House Republicans was the comment of Representative Charles Eaton (Republican, New Jersey). He favored all aid to Great Britain, he said, but shrank "from furnishing that aid by turning over to one man absolute dictatorial power."

Immediately upon its introduction, the measure was referred to the Senate and House committees on foreign affairs. Chairman Walter George (Democrat, Georgia), of the former, announced the committee would meet Wednesday to decide what its procedure will be.

The President told reporters that Latin-American nations, as well as "democracies" at war, could be benefitted by the lease-lending plan if it were found necessary.

Mr. Roosevelt also announced that he had signed a proclamation requiring copper, brass, bronze, zinc, nickel and potash to be exported only under export licences, effective February 3.

These materials, he said, are needed for United States defence. They were added to an already large list by recommendation of the administrator of export control.

PROVISIONS OF BILL

The bill would permit the President, "when he deems it in the interest of national defence," to:

1. "Manufacture in arsenals, factories and shipyards under their jurisdiction, or otherwise procure, any defence article for the Government of any country whose defence the President deems vital to the defence of the United States.

2. "Sell, transfer, exchange, lease, lend, or otherwise dispose of, to any such Government any defence article.

3. "Test, inspect, prove, repair, outfit, recondition, or otherwise to place in good working order any defence article for any such Government.

4. "Communicate to any such Government any defence information, pertaining to any defence article furnished to such Government under Paragraph 2 of this sub-section.

5. "Release for export any defence article to any such Government."

WOULD PERMIT REPAIRS

A statement issued by Congressional leaders said the bill's provision permitting the President "to test, repair, outfit, or otherwise to place in good working order any defence article" meant that repairs could be made to defence articles whether manufactured in the United States or not.

"It could conceivably mean, for example," the statement said, "that the British battle cruiser Renown could be repaired in the Brooklyn Navy Yard if the President considered it in the interest of our national defence to do so.

"The provision is broad enough to permit the use of any other military, naval or air bases to outfit and repair the weapons of countries whose defence is vital to the defence of the United States."

The measure authorizes the appropriation of funds "in such amounts as may be necessary" to carry out its provisions.

Estimates of eventual cost have reached $10,000,000,000, and Senator Alben Barkley (Democrat, Kentucky), the majority leader, has estimated that from $2,000,000,000 to $3,000,000,000 may be appropriated this year.

WILL APPEAL WATER RATE

City Council Signs Notice of Appeal From Ruling of Commission

On the ground that the commission erred in its findings of facts, [illegible] the Lieutenant-Governor-in-Council from the order made by the Public Utilities Commission fixing at 6.75 cents per 1,000 gallons the rate to be charged by the city for water supplied to the Municipality of Oak Bay.

Meeting in camera yesterday as a committee of the whole council, Mayor McGavin and all aldermen signed a notice of appeal prepared by F. L. Shaw, city solicitor, which will come before the council for confirmation at the regular meeting to be held on Monday night. The notice of appeal was explained by the solicitor, and was unanimously approved by the council.

Among the grounds of appeal cited in the notice are the following:

That the commission was wrong in finding as a fact that Smith's Hill reservoir is unnecessary to the furnishing of a water supply to Oak Bay, inasmuch as the reservoir constitutes a standby supply for the protection of the community as a whole, including Oak Bay, in the event of a breakdown in the supply mains, and has been recently used for such purpose.

That the commission was wrong in failing to consider as part of the costs of supplying water the amount the city is compelled to pay for war guards for the protection of its dams and reservoirs.

DIVISOR METHOD

That the commission was wrong in using as a divisor the aggregate of all waters used, in view of the fact that the city, as the largest consumer, has to supply hundreds of millions of gallons of water for purposes beneficial to the whole community, including Oak Bay, free of charge, and similarly to sell large quantities at a price far below cost.

That the commission was wrong in not considering the fact that Oak Bay is fully dependent upon the city for its commercial life.

That Oak Bay receives an adequate supply of water far below the price it would have to pay if it were compelled to provide its own supply system, and if the city supplied the water free at the nearest point (Japan Gulch) at which there is sufficient elevation to provide pressure.

That by using the divisor method accepted by the commission, Oak Bay was given an advantage denied to the city.

ON VISIT TO DEMOCRACIES

Editor Will Tell People of Sweden About Canada's War Effort

"Sweden, with an old and well-founded democratic form of government, naturally wishes to maintain the normal friendly relations which have always existed between it and other democratic countries," declared Dr. Alvar Anderson, Ph.D., editor of the Sunday edition of The Social-Demokraten, leading Labor party newspaper of Stockholm, who was a visitor to Victoria during the week.

"My paper has sent me on a tour through Canada, the United States and Great Britain, in order that the people of Sweden may have a true perspective of the conditions existing in these three countries, particularly in connection with the heavy war industries undertaken by Canada to aid Britain," stated the journalist.

"I left Stockholm in December, flying to Moscow, where I spent a very interesting ten days." He would not talk about impressions gathered at the Soviet capital. "I then took the Trans-Siberian Railway to Vladivostok and thence to Japan," Dr. Anderson stated.

TENSION EXISTING

"In the latter country I was strongly impressed with the tension existing. I did not meet anyone in experienced political circles who cared to prophesy possible developments of the future. Japan has adopted all the well-known practices of the leading Axis powers of Europe and when the question of Japanese aims in the Far East is mentioned, one readily realizes Japan means to establish a new order in Asia under Japanese leadership.

"The situation, however, has become very delicate, owing to the acute situation developing between Indo-China and Thailand, and one cannot be sure that some sudden incident in that sphere of warlike activity might not be the signal for a serious upheaval fraught with serious consequences for lands bordering on the Pacific.

"One of the aims of Japan is to become independent of the United States and the British Empire in so far as raw materials are concerned. The Japanese are endeavoring to bring this independence about through new trade relations with Indo-China and The Netherlands East Indies, and when I left Japan a Vichy Government mission was beginning discussions with the object of developing intensive trade relations between that country and Indo-China.

EARNEST EFFORTS

"At the same time, however," Dr. Anderson continued, "Japanese officials are making earnest efforts to maintain friendly diplomatic relations between their country and the United States. The Japanese ambassador, Mr. Nomura, left for his post in Washington recently, bearing many official greetings and numerous expressions of hope that he would be able to smooth out all the difficulties existing between the two nations."

Dr. Anderson will go from Victoria to San Francisco, Los Angeles, Chicago, Toronto and Montreal before crossing the Atlantic to the British Isles.

NEW PLANE FOR LEGLESS FLYER

Amputations' Association Is Proud of Air Hero Squadron Leader Bader

TORONTO, Jan. 10 (CP).—A plan to provide a new plane for Squadron Leader Douglas Bader, legless chief of the Canadian Squadron of the Royal Air Force, is being proposed by the Canadian Amputations' Association, Lt.-Col. Sydney Lambert, Dominion president, said today.

Col. Lambert said the plan had been forwarded to all branches for endorsement. He said Nova Scotia veterans had decided to contribute towards the fund from their pensions.

"He's our hero and we want to provide him with the best airplane or other means we can to help lick the Germans," Col. Lambert said of Bader. "It makes us proud to think that one of us, minus both legs, can go back and knock the Nazis out."

Bader, who has thirty enemy machines to his credit, lost both legs in a flying accident before the war.

The Valiente also called in Port Angeles last week-end before sailing to the Orient, stopping to pay off eleven Filipino crew members who decided they did not want to make the trip. While here she lost an anchor in the harbor. She went to Victoria Sunday night to replace the lost crew members and sailed from Victoria later in the week.

The limit of weight for parcels prepaid at this rate would be eleven pounds. This is the same as the present rate on parcels for Canadian, British, Empire and Allied troops in the United Kingdom.

CLUB CHARTER IS CANCELED

Provincial Government Revokes Incorporation of Vancouver Premises

Acting on a recommendation by the Vancouver City Police, the Provincial Government yesterday revoked the charter of the Metropolitan Club, Ltd., of Vancouver and ordered the company dissolved after settlement of all obligations.

The Attorney-General's Department, in control of registered companies, acted on a complaint of Vancouver City asserting a conviction had been obtained against one of the directors of the company on a charge of "keeping a common gaming house."

The Metropolitan Club, Ltd., was incorporated under the laws of the Province on June 8, 1920. In the order in council revoking its charter, the Government asserted that "illegal activities had been carried on" in the premises.

A copy of the order was sent to Mayor J. W. Cornett, Vancouver, whence request for this action originated.

SHIP BUNDLES OF GARMENTS

Large Consignment Leaves New York for Britain—Made to Specifications

NEW YORK, Jan. 10.—Today the first mercy shipload of hospital garments sewn by volunteers in forty-seven American states to specifications as exact as if they had all come from one factory, was on its way to British victims of German air bombings.

With U-boats lurking along the Atlantic sea lanes, Bundles for Britain, sponsors of the shipment, kept the name of the vessel and the date of its departure a strict secret, revealing only that it left New York around the middle of this week.

Britain's urgent appeal for hospital garments, issued by Mrs. Winston Churchill, reached here in the late Fall, at a time when most aid-Britain work was still in the filed of bandages and worn clothes. Faced with the problem of rushing out by hand factory quantities of identical surgeons' aprons and masks, bedjackets, undervests and nightshirts, when only one master pattern of each type had been furnished them, Bundles for Britain appealed to J. M. Shapiro, president of Simplicity Pattern Company, world's largest pattern manufacturer. Simplicity donated thousands of specially-cut patterns of each type which were distributed among more than 500 committees across the country to guide the work of women eager to give practical expression to their sympathy for wounded British civilians.

The completed garments were hurried to a warehouse in New York City, where they were sorted and repacked Tuesday night under the direction of the Duchess of Leinster, assisted by leading doctors of New York.

Driver Is Fined For Speeding on Oak Bay Avenue

The first motorist to be charged under the new speeding by-law on Oak Bay Avenue was fined $5 in the municipal court yesterday afternoon.

In imposing the fine Magistrate H. C. Hall said:

"I think in this case I should comment that this is the first case under the new speed limit on Oak Bay Avenue. It is a new provision and might not be generally known to the citizens. I am advised, however, by Chief Reston that it has been brought into effect by virtue of the number of accidents, and these steps are taken to control that situation. I propose for a short time until it becomes more generally known, to impose a fine of only $5 but it will shortly be increased to the usual standard fine of $10, which also may be increased if circumstances warrant it."

The comedian was born in a small town near Budapest thirty-five years ago. His real name was Pinter.

URGE LOWERING OF FIRE RATES

Wardens Point to Past Year's Record—Discuss Radio Scheme

In view of the fact that the city's fire losses during the past year, totaling $13,315, were the lowest in thirty-two years, the fire wardens, at a committee meeting yesterday afternoon under the chairmanship of Alderman H. A. Wills resolved to recommend that the City Council should apply for a reduction in fire insurance rates charged to city property-owners.

The wardens also considered a renewed request by Fire Chief Alex Munro that another man should be added to the department to act as fire prevention officer. Under the present system, fourteen untrained men conduct an annual inspection of city premises with the object of preventing fires, and it is the chief's opinion that one man, specially trained, and engaged full-time on prevention duty, could make the rounds three times a year. He quoted last year's low fire loss as a reflection of proper supervision.

The wardens resolved to place the chief's recommendation before the estimates committee for its consideration.

RADIO EQUIPMENT

The chief further recommended that short-wave radio equipment should be installed for the use of the city and municipal fire departments. The wardens indicated that if the police department's request for the installation of a police radio were renewed this year, they would be prepared to discuss the whole question with the police commission.

Attempts made in past years to establish a police radio system for Greater Victoria fell down through the refusal of the neighboring municipalities to enter the scheme. This is the first time that such a request has been made by the fire chief, whose contention is that radio would give wider and more effective and economical control over fire-fighting units.

CITY ORGANIST PASSES AWAY

G. Jennings Burnett, Well Known Here for Over Half Century, Succumbs

LATE G. JENNINGS BURNETT

G. Jennings Burnett, dean of the city's organists and widely esteemed both as musician and citizen, passed away yesterday afternoon at St. Joseph's Hospital, where he was taken recently following a seizure. He was in his seventy-fifth year.

Born in Somerset, England, Mr. Burnett came to Canada more than half a century ago, his father being a well-known druggist of New Westminster in the immediately succeeding years after the family arrived on the Pacific Coast. Jennings Burnett inherited his love of music from his father, who, although merely an amateur musician, made quite a contribution to hymnology. The son had a good musical education before the family left the Old Land, and almost immediately on arrival in Victoria took on the duties of organist at old Calvary Baptist Church, a position which he held for several years. From there he went to St. Andrew's Presbyterian Church, preceding the late Jesse Longfield whom, by a curious coincidence, he succeeded as organist at St. John's Church, where he had filled the office for the last thirty-six years, only recently his place being taken by Ian Galliford, one of his own talented young pupils.

GREAT CONTRIBUTION

During the more than fifty years of organ playing in Victoria, Mr. Burnett made a great contribution to the musical life of the city as organist, choir leader, composer, teacher and organizer of sacred and secular programmes. For many years after the installation of the fine present instrument at St. John's Church he gave three or four organ recitals annually, introducing the public to some of the best organ works. He was also responsible for the presentation of some of the most beautiful choral works ever heard in the city, these being presented by the choir of St. John's Church and frequently supplemented by other voices.

In his time he taught many a talented pupil to play "the king of instruments." He was a wonderful teacher of theory and harmony, and has left voluminous proof of his knowledge of these subjects in his organ compositions, many of which have been heard on his own recital programmes. He frequently competed successfully in composition contests open to competitors from all over the world.

THOSE WHO SURVIVE

He is survived by his widow who, before her marriage, was Rosa Lennie and three daughters, Phyllis, a teacher at George Jay School; Grace, Mrs. James Edmonds, of Britannia Beach, and Jean, living at the family home, 606 Niagara Street. Also by a sister, Mrs. Frederic King of Victoria, and a brother Harold Burnett, of Vancouver.

Funeral services will be conducted on Monday afternoon at 2.30 o'clock in St. John's Church by Rev. George Biddle, Rev. Canon Chadwick and Rev. Montague Bruce. Interment will take place in the family plot in Royal Oak Burial Park. Sands Mortuary Limited will be in charge of arrangements.

Rotarians Will Stage Big Sale On Streets Today

The last night for the sale of tickets to the patrons of the Plaza Theatre during the intermission netted the Rotarians $33 last evening from the sale of chances on the $2,000 Rotary diamond brooch. The club is rapidly nearing its goal of $5,000 that will be contributed to the Lord Mayor's Fund.

Almost a hundred Rotarians will be on the streets of the city today stationed at all important corners selling tickets to the public. Magician William Harkness will move from stand to stand entertaining the crowds with exhibitions of his sleight-of-hand and card tricks.

"Buck," the huge Newfoundland dog belonging to John and Keith Olson, will move through the shopping crowds, pulling a small wagon specially fitted for the purpose. Tickets will be sold by a pretty young miss in the conveyance. It is claimed that the dog will shake hands with everyone that buys ten tickets.

The drawing for the diamond brooch will take place at a Rotary function at the Empress Hotel next Thursday night, when a large crowd is expected.

"Every Ticket Sold Means Fifty Cents Toward the Lord Mayor's Fund Without Deductions."

PRESS AND CENSORSHIP

The other day one of the chief Press Censors of Canada visited Victoria, and he was told while here that the quality of the information officially disclosed, or permitted to be disclosed, or banned from publication continues to be a matter of controversy. He was told, moreover, that it was quite possible that the Government's practice of the art of concealment of matters which could not, by any stretch of the imagination, give comfort to the enemy, was partly responsible for apathy or complacency evident in public appreciation of the war effort as devised at Ottawa. The trouble with censorship in this country is that it is a multiplex effort. It is doubtful if there is any clear delimitation of authority as between the Services and the civilian, or political, control. Their rulings clash; their viewpoints differ; their appreciation of what constitute news values in arousing the enthusiasms of the people is sometimes wholly at sea.

The Government would do well to consider to what extent its suppression of news is militating against its own attempts to secure national effort to the utmost in Canada's part in the War. There is the official knowledge that investments in war savings certificates and stamps have not risen to the heights expected. They are not on a par, proportionately, with the results achieved in other parts of the Empire. The Government has a host of publicity agents in its employ, attached to the different ministerial departments, but, however capable these are, their propaganda service may well be nullified, at least to some extent, by what is withheld from the public knowledge. The Government expects, and rightly so, to receive the full co-operation of the newspapers in making plain to the people what is the actual situation, but, however anxious the Press may be to do all it can at this time, it is handicapped by lack of knowledge on many matters.

Newspapers suffer in informing their public by the fact that many instances have arisen in which political and military censorship works at cross purposes. There should be one central authority; one finality in judgment. There is much information suppressed which should be made public. The result is that the War has not been brought home to the people to the extent that it ought to be. The only relationship that the Government has with the newspapers is through its censorship, through its advertisements and through its propaganda articles and leaflets. The latter are mostly tossed into wastepaper baskets because their contents cannot be divorced from the effort to create party political capital. Publicity, rightly directed, is an important factor in the carrying out of war policies. The Government recognizes this when it wants recruits for the Services, and so do the Services themselves. There should be a similar recognition on a far wider scale, but to achieve this it is essential that the Government should take the newspapers into its confidence.

LEADERSHIP STILL LACKING

A correspondent of The Globe and Mail, Toronto, asks "Why does Canada lag in war effort?" In that war effort, as defined by the Prime Minister, this correspondent says it seems always to be "my colleagues and I," and this affords a striking contrast to that presented in New Zealand. In the latter country there is a non-party Administration. There, in the discussion of war policies, the Ministers sit in joint session with a National War Cabinet, which includes industrialists, bankers, farmers and trade union leaders.—The correspondent in question quotes a recent article by Mr. John A. Stevenson on New Zealand and the War, in which it is shown that the result of the unity of effort is outstanding.

New Zealand, with a population of 1,500,000, has an expeditionary force of 23,000 men already overseas. She has 100,000 men in training at home. It is noted that the population of 1,500,000 has subscribed $23,000,000 for non-interest bearing war bonds, "as against Canada's $5,000,000." New Zealand is shouldering heavier taxation than is Canada for war purposes. In drawing his parallel, the correspondent says: "During the Great War Canadian people were roused and enthused by bands of music, the boys marching, inspirational meetings, etc., with the result they opened their purses far more willingly than they are doing today . . . Canada must cease to lag. Canadians must be aroused. Every ounce of effort must be thrown into the titanic struggle. Let the Government lead and the people will follow." This is the soundest of advice, but the unfortunate thing is that, because of partizanship, and because, too, of temperamental political defects, there is no leadership emanating from Ottawa.

WAR AIMS

In November last it was Mr. Charles Key, the Member for Bow and Bromley, who seconded the Address in reply to the King's Speech at the opening of Parliament. He is the successor in Parliament of the late Mr. George Lansbury, and he spoke for his constituents in the East End. From his lips came the definition of what this War is all about, and he put it in a way that none may misunderstand. A few passages from his speech were:

"Bred as we are in surroundings of ever-broadening liberty, we know the full import of that for which we fight. We seek no military victory in this conflict, but victory over the idea that might is right, victory over the idea that the individual counts for nought and the State for everything, victory over the idea that national or Imperial greatness is of any worth at all at the cost of the development and expression of the human mind and soul. We strive for victory, not merely that we may live, but live in freedom, not merely that we may restore to our country the conditions that prevailed in August, 1939, but that we may build in England's green and pleasant land the New Jerusalem of our dreams. . . . We strive against the claim that one race shall dominate all others, one creed suppress all others, and one race subjugate all others. In our victory we fight for the freedom of all. On the details of the new society which we seek opinions will differ. The economic structure which some of us would desire will not commend itself to all, but in this we are united, that that structure, whatever it be, shall be the result of the free deliberations of a free Assembly, freely elected by a free people."

NEED OF BINOCULARS

In Great Britain an appeal has gone out again for binoculars, which are wanted urgently for the fighting Services. The reason why the public is being asked to donate these is because the industries that manufacture them are now making bomb-sights, gun-sights and other vital equipment. The immediate requirements in Great Britain are 125,000 pairs. The first appeal led to a ready response, and now again the need has arisen, and the particular appeal is to those who use binoculars in different forms of sport, such as horse racing, yachting, stalking and other pursuits. There are regional collecting depots throughout the country, and the Government, where the desire is for payment, will give a fair price.

Some months ago the Government at Ottawa made a similar appeal, but did not follow up the matter, and made no statement about the response it received. It may well be imagined that here, as in Great Britain, binoculars are necessary accessories to the fighting Services. Just what is the equipment of the forces in the Dominion in this respect is not known, but since it appears that there is a growing demand for binoculars in modern warfare, the Services in Canada should be well provided, and could be were the Government, as in Great Britain, to take the necessary action.

"LIEUTENANT" OR "MR."

The Quebec Chronicle-Telegraph has been reproved for the use of the term "lieutenant" instead of "Mr." in its social columns. It is pointed out to that newspaper by a retired soldier that such a junior officer in the Army is addressed as Mr. by privates and non-commissioned officers, and that, moreover, the use of the term in recording social items implies the officer alluded to is either in the Navy or in the Royal Air Force. The Quebec Chronicle-Telegram regards the point raised as worthy of an editorial explanation, in which it admits the contention of its critic, but claims that in the circumstance the editor, as so frequently, finds himself "between the devil and the deep sea." It is pointed out that Canada's is a "citizen's army," that the friends of those of junior commissioned rank are very anxious always to see that rank acknowledged in public print. They take umbrage when a lieutenant is alluded to as plain Mr. The Chronicle-Telegraph then says:

"Consequently, as this paper is not a military journal, and as it has many other ways of offending its readers involuntarily, we must stick to lieutenant until such time as our old soldiers have drilled the public into the traditional way."

German bookmakers seem to be as badly out in their reckonings as German militarists and politicians. In the middle of September last they were laying odds on "the successful outcome of the campaign against England by the beginning of October." Some went so far as to fix the date at October 5. Journalists in Germany were more cautious, but equally wide of the mark, for they were betting on October 15.

MACHIAVELLIAN MORALISTS

Tyrants and self-seeking rulers are by nature Machiavellian moralists, they have no faith but in the most vulgar incentives to action, and are familiar with no engines of influence but force and corruption. Accustomed to rely on these, they know not that there are emergencies in which even a herd of slaves may be inspired with an enthusiasm that makes such implements of no avail—when high sentiments of social justice or aspirations towards an invisible God vibrate through the dull clay of ordinary men.

By SANDHAM GRAVES

The philosopher, K'ung, teaching at the turn of the Fifth Century, B.C., considered the times decadent. He spoke of the days of Wan and Wu, and of the summit of human wisdom some 2,000 years before his own age. Taken, to various form, from the writings of pupils of his disciples, there is some reason to believe that Confucius did say:

GRATITUDE

Sir,—A most conscientious retired United States Navy officer once said to me, "The word 'gratitude' should be eradicated from our language." From the many instances depicting lack of this trait, one realizes that there is a great deal of truth to his assertion.

The other day whilst waiting for [illegible] Bros. Station, I noticed the cap of the gas tank from a passing car fall off. The cap rolled up to within a few feet of where I was standing. One of the attendants volunteered to take charge of the cap, valued perhaps around two or three dollars. Although I did not catch the number of the car, I took note of the color and shape. Being on the lookout for this car, I discovered it parked on Yates Street minus the cap.

I "ticketed" the car, telling where the cap could be found, signing my name and address. The least I expected was a phone call thanking me for my trouble. Only another instance of lack of gratitude or common decency, Mr. Editor, of which many of us sadly lack.

The Observation Car

Just Asking for It!

We have heard many complaints from Canadian citizens with regard to paying their annual radio licence fee—or have we? Well, here is a little story that might interest all complainants against the $2.50 levy. An American radio listener became so interested in a certain CBC radio programme that he wanted to do his bit too—and pay the radio licence fee. He never knew before, he said, that Canadian set owners were assessed for the privilege of twirling the dials. It strikes us the gentleman either has more money than he knows what to do with or he is one of those few persons who believes that it is more blessed to give than to receive—and we exclude all prizefighters.—W.I.P.

Glancing Over Sport

The first prediction I attempted this year went as usual, into reverse, and it had to be the Rose Bowl game which everybody had their eyes on. In the city today there are two inter-city clashes, the Radials meeting Victoria United in a Coast League soccer match this afternoon and New Westminster Adanacs taking on the Dominoes in a cage battle this evening. Radials to beat Victoria by two clear goals and the Dominoes to turn back the Royal City basketballers by ten points. Toronto Leafs should increase their lead in the hockey race by downing the hapless Americans. Boston Bruins have had a good rest this week and will whip the Canadiens in Montreal by three goals . . . Alice Marble has attracted 20,000 fans in her first two tennis exhibitions since starting on that barnstorming tour with Bill Tilden, Don Budge and Mary Hardwick. They are playing in Seattle and Vancouver. Why not bring them here and park the Sports Centre to the rafters? . . . More than 2,500 fans watched young Kenny Lindsay drop his first Vancouver fight the other night since turning pro. A return match with Jurich would probably attract about another 500 to the auditorium for it was a first-class bout the other night. Jurich's experience proved the deciding factor in getting the decision. However, Kenny won the hearts of the crowd for the game showing he made.—J.D.

Made Speedy Exit

"Daddy, can you please help me with this crossword puzzle?" asked the little daughter of Bill, the Broad Street barber. "Yes, dear. What words are you having trouble with?" Willie tenderly inquired. "What is it when a man is married twice at the same time?" the child wanted to know. "That is polygamy," the barber replied. Just then Mrs. Bill entered the sitting-room to remind Willie that he had not chopped wood or kindling, emptied ashes from the kitchen stove, or dried a pile of dishes left at the sink. "Daddy, I need some more help. What is it when a man is married only once?" the puzzled girl asked. Willie caught his wife's eye, sidled towards the back door, and smirked. "That is monotony." . . . According to a newspaper account, a Toronto woman recently secured a divorce on the grounds that her husband would not work and enjoyed poverty. Presumably the judge gave him custody of the wolf at the door. . . . Several accusations were levelled at Aubrey during a slight argument at his club. "My past is like an open book," Aubrey stoutly maintained. "Yes. The kind you read with the door locked and the blinds pulled down," his opponent snickered.—O.B.

FIFTY YEARS AGO TODAY

(From The Daily Colonist of January 11, 1891)

Municipal Elections—On Monday at noon, the nomination of candidates for membership in the City Council will take place in the City Hall. The following are among the candidates already spoken of: For Mayor—John Grant and Alderman Wilson; Aldermen for James Bay Ward—A. J. Smith, William Wilson, John Irving, H. A. Munn, J. P. Matthews, Joseph Hunter and Edward Mallandaine. Aldermen for Johnson Street Ward—Joshua Holland, John Robertson, A. J. McLellan, John Coughlan, W. H. Snider. Aldermen for Yates Street Ward—Louis Vigelius, W. D. McKillican, C. E. Renouf, W. Walker, F. O. Richard, Jr., and Joseph Wrigglesworth.

Schooner in Distress—Captain Ackley, of the steamer State of California, which arrived at Portland on Friday, reports that on January 8, off Crescent City, the steamer met a tug with a three-masted schooner in tow southward bound. The vessel had a deck load of lumber, and all the spars were gone but the lower mainmast on which a small sail was set.

Victoria Jockey Club—A meeting of the executive committee of the Victoria Jockey Club was held last night at the office of Messrs. Dalby, Ballentyne & Claxton. The president, R. P. Rithet, occupied the chair. It was decided to draw up, as early as possible, a programme for the Spring meeting, which it was determined to make as attractive as can be. It was resolved to join the National Trotting Association.

"*Sacrament*" Is Christian Science Topic

"Sacrament" will be the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday. The golden text is: "The grace of the Lord Jesus Christ, and the love of God, and the communion of the Holy Ghost, be with you all" (II Cor. xiii, 14).

Among the citations which comprise the lesson-sermon is the following from the Bible: "See that none render evil for evil unto any man, but ever follow that which is good, both among yourselves and to all men. Prove all things, hold fast that which is good" (I Thess. v, 15, 21).

The lesson-sermon also includes the following passages from the Christian Science Textbook, "Science and Health With Key to the Scriptures" by Mary Baker Eddy: "While respecting all that is good in the Church or out of it, one's consecration to Christ is more on the ground of demonstration than of profession. In conscience, we cannot hold to beliefs outgrown, and by understanding more of the divine Principle of the deathless Christ, we are enabled to heal the sick and to triumph over sin."

Ministerial Meeting

The monthly meeting of the Victoria Ministerial Association will be held on Monday in the Y.W.C.A. at 10 a.m. The speaker will be Rev. Dr. W. C. Western, rector of St. Paul's Naval and Garrison Church, discussing "The Shady Side of the Hill." A full attendance is requested.

ALEXIS MISSION

The Spiritual Mission of Alexis meets on Sunday at 1416 Douglas Street. At 7.30 an address will be given by the control "Alexis," the subject being "Facing Life, the Religion of Fearlessness," following which messages will be given by Mrs. McDermott. Music will be provided by violin and piano. On Thursday, at 8 p.m., the usual healing and message meeting will be held at 1042 Balmoral Road.

The time is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table, the tide rises or falls continuously during two successive tidal periods without turning.

To find the depth of water on the sill at the Esquimalt Dry Dock at any tide, add 24 feet to the height of high water as above given.

TO TRAIN IN ONTARIO

TORONTO, Jan. 10 (CP)—Most of the 100,000 men who will be trained for the heightened war effort in vocational schools and the war industries will receive their training in Ontario, Hon. Norman Hipel, Minister of Labor, said today.

"North opened the bidding with two hearts to which I, sitting South, responded with three diamonds. North then bid four no trump. I bid five clubs and North bid seven hearts, which was not doubled, but which, because of the heart distribution, was set one trick. North insisted that I should have responded to his two-heart bid with four diamonds. I said that that would imply some support for his heart suit which I did not have, but that in my opinion he should have responded to my three diamond bid with three hearts. I would then have bid four diamonds, refraining from making the four no trump bid which my hand warranted, because I had no heart support. I stated that I thought he should then bid five no trump, to which I then would have responded with seven diamonds.

"The one real criticism which my partner might have made and did not make, was that I should have taken out a seven heart contract with seven no trump.

"You will observe, however, that I did not have the ace of diamonds and it was entirely possible from my point of view that his seven heart bid was occasioned by the fact that he had a diamond void. I would appreciate your comments on the matter.—I. D., Oklahoma."

Grand slams are rare enough and profitable enough, to make their loss a serious matter. It is especially maddening to be defeated at this exalted level when thirteen tricks are readily available and the only problem is to select the proper denomination.

My correspondent is far too modest in assuming any of the blame in this tragedy. As South, his bidding was flawless. It would have been criminal (despite the result) for South to "take charge" and bid seven no trump over North's seven hearts. As South himself points out, North's holding might well have been

or

♠ — ♥ A K Q J 10 8 8 ♦ A 6 3 ♣ K Q 2

Had North held either of these, or a similar hand, void of a suit, but solid in hearts, South probably would have been "liquidated" on the spot for bidding seven no trump, against which the opponents could cash the missing ace (or ace-king).

No, South can absolve himself of any complicity in the crime that occurred. North, and North alone, was guilty. When he located the club ace in South's hand (via the four no trump convention) it should have become crystal clear that seven no trump could not fail if North's heart suit came home solidly. Since this proviso also would apply, in fairly obvious fashion, to a seven heart contract, it follows that North, who was the only one who knew about all the controls, should have been the one to select the no trump contract. This would have two enormous advantages over a suit contract: (1) An opening lead could not be ruffed by the other defender and (2) if one suit (hearts or diamonds) failed to break, the other might supply enough tricks to round out the contract.

NEW METHOD

Slightly Upward Trend Persists On Wall Street

NEW YORK, Jan. 10 (AP).—The stock market today lost some of its rising vigor but managed to keep general trends pointing slightly upward.

Rails, well out in front in the forenoon in lively dealings, backed down a narrow range at the last and steels canceled initial advances. Utilities, rubbers, oils and specialties did fairly well, although top gains were shaded in virtually all departments at the close.

Heavy buying in secondary carriers' bonds continued in the loans section with volume for all loans touching the second highest mark since September, 1936.

The Associated Press average of sixty stocks tacked on .1 of a point at 45. It was the seventh consecutive session in which this composite had been up or unchanged.

Activity in the share list tapered off appreciably in the latter part of the proceedings and transfers totaled 751,670 shares compared with 858,560 the day before.

Among stocks, Louisville & Nashville went into new high ground for 1940-1, but finished unchanged. U.S. Rubber and Air Reduction were up better than a point each. Lesser advances were retained by Great Northern, Pennsylvania, Union Pacific, Chesapeake & Ohio, Goodyear, United Aircraft, International Nickel, Western Union, Consolidated Edison, Bond Stores, Woolworth and South American Gold.

LEGION VETERANS ENJOY CONCERT

Pro Patria Branch of Canadian Legion Stages Annual Smoker And Reunion Here

Over two hundred members of the Pro Patria Branch of the Canadian Legion met in the Legion Hall, Thursday night, for the annual smoker and concert, when a full programme of entertainment was provided by the veterans.

Following the speech of welcome of First Vice-President A. E. Hull, who stressed the importance of the Pro Patria platoon in the Home Guard regiment, Lieut. J. H. Frank thanked the members for their support of the squad and said that it was the largest in the regiment. A large number of the members of the Pro Patria platoon of the Home Guard attended the reunion.

Master of Ceremonies Jim Pettigrew introduced the various numbers on the evening's programme, which was headlined by feats of sleight-of-hand by J. Gow. The magician entertained the large audience with card tricks and feats of prestidigitation.

Other numbers on the programme for the night included solos by A. Jackman; a violin solo by W. Anderson; monologues by G. Potts; comic skits by J. Dobbie, and novelty dances by R. Hunt.

Light refreshments were served during the evening.

WHAT'S DOING ON THE LOCAL RETAIL PRODUCE MARKET

Wholesalers reported that prices on several of the commodities are at present "firm" and advancing in some cases. Of the increased prices, lemons were most affected going up fifty to seventy-five cents a case.

Bahamas and Mexican tomatoes are now scarce, causing an increase in price. Spinach and California sweet potatoes and oranges remained firm. California peppers went up in price owing to their scarcity.

The first car of the season of Southern "Truth" navels arrived here yesterday, along with a shipment of bananas from Central America, tomatoes from California, spinach, lettuce, lemons, peppers and sweet potatoes from California.

On Monday a large car of apples and a car of onions will arrive from the Okanagan. A shipment of celery from California is also expected on Monday.

Apples are reported by wholesalers to be moving well at present. Mission rhubarb is arriving daily and the price is easier.

Chief Insurance Officer and Executive Assistant for Commission Named

OTTAWA, Jan. 10 (CP).—Selection of R. O. Barclay, of Ottawa, formerly of Calgary and Winnipeg, as chief insurance officer under the newly established Unemployment Insurance Commission, was announced by the Civil Service Commission yesterday.

The commission also announced that Ernest C. Desormeaux, of Ottawa, will be bilingual secretary and Dr. J. S. Hodgson, of Montreal, will be executive assistant to the Unemployment Insurance Commission.

The Civil Service Commission also confirmed officially the appointment of Dr. Allon Peebles, of Victoria, B.C., as insurance director, an appointment which was made known previously by Mr. Peebles.

The executive director will draw a salary of $5,400 a year and to take the job Mr. Peebles is resigning as chairman of the British Columbia Health Insurance Commission. He is forty, a graduate of the University of British Columbia, an associate of the Actuarial Society of America and the holder of a doctor of philosophy degree from Columbia University for a thesis on medical care provided in certain areas of the United States.

HAS BROAD EXPERIENCE

Mr. Barclay, forty-five, has been in rehabilitation work since the first Great War. In 1921 he was appointed assistant controller of loan accounting at Ottawa, becoming inspector of accounts in 1932. As chief insurance officer his salary is $4,500 a year.

The bilingual secretary, Mr. Desormeaux, forty-four years of age, has nearly twenty years of continuous service as secretary-treasurer of the Ottawa Separate School Board. The salary for his position is $4,020 a year.

Mr. Hodgson, a Rhodes scholar, earned a doctor of philosophy degree from Oxford University, specializing in industrial relations. In the Department of Labor he assisted in drafting the Unemployment Insurance Act, under which the new commission will operate. The salary for this position is $3,120 a year.

TRAINING PLAN DETAILS READY

Continued from Page 1

800 plants in which plant schools will be located to see that trainees get fair treatment, and to see that their wages are increased in accordance with terms which will be inserted in war contracts.

In addition to providing the technical school buildings and instructors in which vocational training will be conducted, the provinces will provide about 15 per cent of the out-of-pocket costs of the plan. The Dominion's expenditure of $4,365,000 for the coming fiscal year (starting April 1) represents the remaining 85 per cent.

GRANT TO BE MADE

An immediate grant of $350,000 will be made by the Dominion to the project to cover increased expenditures before the new fiscal year begins.

The technical schools have a capacity for about 15,000 students and during Summer holidays will be able to accommodate three shifts of classes.

The plan is based on a report made by the inter-departmental committee on labor co-ordination, headed by Dr. Stewart. The report estimated the additional drain on the Canadian labor market in 1941 from enlistments and new employment in war industries at 200,000 men.

Some time ago the Defence Departments announced that to avoid competing with industry for skilled labor it was proposed to train the skilled workers required for the uniformed services. The Labor Department's announcement indicated this will be done, so far as the Army and the Air Force is concerned, by sending enlisted men to the training schools operated under the Labor Department's plan and taking them back to their units on graduation.

DIRECTORS IN PROVINCES

Organization of the plan in a province calls for supervision by a provincial department or an inter-departmental committee with a full- [illegible] the director would be a director of training, director of selection and placement and an office manager with the necessary staff.

The Dominion would contribute full salaries of teachers and instructors, allowances and traveling expenses of trainees, materials and supplies, necessary hand tools in addition to those already in the schools, breakages and machinery and equipment, accident protection, rent of extra equipment, extra cost to schools for light, power and caretaking, salaries of extra clerical help in schools.

The Dominion will also pay half the purchase price of extra machinery and equipment, and half the salaries of special placement officers and directors of special projects.

SCALE OF ALLOWANCES

The provision for allowances to trainees while training follow:

Single trainees living at home shall not receive any allowance except (a) where they have given up employment to attend a class, or (b) where there is financial need. In such cases the maximum weekly allowance shall be $3.

Single trainees living away from home shall receive a maximum weekly allowance of $7 except in those areas in which board and lodging cannot be obtained for this amount, when the maximum weekly allowance shall be $9.

Trainees who are heads of families shall receive $12 a week.

The Dominion Government will pay the necessary traveling expenses of trainees from their home to the school and return if necessary.

While the length of training to be given will depend on (a) the degree of skill required and (b) the aptitude and previous experience of the trainee, in general pre-employment courses should last from six weeks to three months, but training shall be given for eight hours a day and forty hours a week.

In special occupations a longer period of training will be required, but in those occupations requiring less than approximately four weeks' training, such training shall be given in plant schools.

RATES OF PAY

The minimum rates of pay for trainees employed in plant schools shall be as follows.

Twenty cents an hour for the first thirty days, forty-eight hours a week.

Twenty-five cents an hour for the second thirty days, forty-eight hours a week.

Thirty cents an hour for the third thirty days, forty-eight hours a week.

Thirty-five cents an hour for any additional training period required.

If for any reason a trainee should leave the services of an employer he shall be furnished with a certificate which shows clearly the length of time he was employed; in what capacity or capacities; the reason for the separation, and the total amount of his earnings.

The head of each school shall give each trainee who satisfactorily completes a pre-employment course a certificate setting forth the period of his instruction, the different categories of work involved and his grading in each.

"In effect, the new training programme is a streamlining and speeding up of the training work which has been under way for some time," a statement given out at the press conference said. "In recruiting trainees preference will be given to the middle and older age groups and veterans of the past and present war."

Alan Cunningham, charged with the murder of Frank Hargreaves after his arrest this week on the North Thompson River, appeared before a Kamloops police magistrate yesterday, and was remanded for eight days for preliminary hearing, according to advices to headquarters of the Provincial Police. The body of Hargreaves was found outside of his own cabin with bullet wounds in the head.

Formally Opens Royal Dolls' Exhibit

VISCOUNTESS Byng on Thursday afternoon formally opened the exhibition of the royal dolls, "Marianne" and "France," who are to be on display at the Hudson's Bay Company daily until, and including, Thursday, January 23, in aid of refugees. In the above picture Lady Byng is shown speaking into the microphone at the time of the formal opening, among those visible in the background being, reading left to right: Mr. A. J. Watson, manager of the Hudson's Bay Company here; Mrs. A. C. Ross, Mrs. Andrew McGavin, Mrs. Max Rice, Mrs. A. E. Hopkins, president of the Local Council of Women, which is sponsoring the exhibition of the dolls in Victoria; Mrs. E. W. Hamber, Dr. Olga Jardine, Mrs. Slair Reed, Mrs. Madge Hall and Miss L. M. Savory. The legend in the sign above the entrance to the exhibition explains that these are "The Princess' dolls (given by the children of France for the Princesses Elizabeth and Margaret Rose in the Summer of 1938 when the King and Queen were visiting France) loaned by gracious permission of Her Majesty the Queen to raise funds for Canada's war refugees." In opening the exhibition Lady Byng characterized herself as a refugee, like the dolls themselves, with the difference that they were here to raise money for a worthy cause.

ASK DEFINITION OF RENT ORDER

Real Estate Board Reveals Confusion Over Ultimate Filing Date

At the regular meeting of the Real Estate Board of Victoria, held in Spencer's private dining-room yesterday, the board members moved to apply to Ottawa for clarification of the recent rental-control order.

It was understood from the local rental control tribunal that January 31 was the ultimate date for filing of applications for changes in the rate of rentals. This was contrary to the understanding given by Mr. Justice W. M. Martin, chief rentals administrator, at the time of his visit here. He indicated that application for rental changes might be made at any time during the duration of the rental control order, according to the Real Estate Board.

In accordance with the understanding of the local tribunal, and effective at the present time, the rental control order states that no application for rental changes will be accepted by the local board after January 31.

FORMS COMPLICATED

Major H. C. Holmes showed Real Estate Board members samples of the official application forms for rental changes. Five forms are to be used, including one for corporate owners of apartment houses, one for non-corporate owners of apartment houses, one for owners of family houses, which house from one to five families; one for indicating a mutual agreement between owner and tenant at time of change in rents; and one for any basic rental increase.

Alderman W. H. Davies indicated that the board should express official disapproval of the intricacy of the forms, with the attendant high expense in filling them out. The cost of such work must be borne by the applicant, rather than the Government.

Other business at the meeting included a suggestion by C. C. Pemberton that the city should beautify the city streets by the planting of trees, and a suggestion from Major H. C. Holmes that the board urge the preservation of historic houses in the city. J. C. Bridgman was chairman of the meeting.

What Today Means

If January 11 is your birthday, the best hours for you on this date are from 8.45 to 10.45 a.m., from 2.45 to 4.45 p.m. and from 8:45 to 10.45 p.m. The danger periods are from 6:45 to 8.45 a.m., from 6.45 to 8.45 p.m. and from 10.45 p.m. until midnight.

A divergence of opinion will be the primary cause of dissension and needless bickering over trivial things, with headstrong people taking an unreasonable stand regarding fancied wrongs. On January 11 you may find that no matter how right you are in your contentions, prejudice will be the cause of attempts being made to make you feel you are in the wrong. Realism will make it difficult for the average person to do any day dreaming on this date and is apt to be responsible for those persons appearing commonplace or dull and lacking in humor. Few good intentions will be successfully carried out on this day because of opposition and animosity that is liable to be manifested without cause or reason. Married and engaged couples, and those who find themselves seriously in love, can console themselves with the thought that "things are not always what they seem," and that many bad conditions are corrected through the application of patience and passage of time.

If a woman and January 11 is your birthday, a dread of facing realities may often make you close your eyes to facts. A hard heart is callous, and a kind one tender and easily hurt, so always consider carefully which you are dealing with if you feel called upon to criticize. Be careful you cause no one to suffer mental anguish through your failing to sympathize with their aims in life, and their desire for happiness. Self-centredness may make home matters difficult to concentrate on, and may be responsible for chaotic conditions in home life so be constantly on your guard against becoming too absorbed to forget to do your part to keep them running smoothly. As an office or business manager, artist, musician, teacher, interior decorator, designer, author, or sales agent, your accomplishments may be greatly admired and well paid.

The child born on January 11 usually, during its school period, displays a high degree of intelligence and ability to do good work, when it applies itself to the task in hand. This youngster must develop a sense of responsibility, and it is largely up to its parents to see that it does, if they wish to see it achieve success.

If a man and January 11 is your natal day, never permit a lack of appreciation to cause you to feel discouraged. If you strive continually to do your duty and what you consider to be right, your efforts should be ultimately rewarded. Experience is probably your best teacher, but you may find that what you have learned in her hard school is difficult to impart to others, so do not waste your time trying to do it. As a clergyman, educator, lawyer, doctor, contractor, promoter, sales agent, author, actor, musician or businessman, your final reward should be well worth waiting for.

ITALIAN WARSHIPS BOMBED BY R.A.F.

Continued from Page 1

damage done was impossible, owing to a heavy smoke screen thrown out by the cruisers.

"Another stick of bombs straddled the army marshalling yards and oil tanks to the south of the harbor. Fires were started at wharves and near the drydock. Other bombs fell very close to the oil storage plant, causing explosions with green flashes. All our aircraft returned undamaged to their base."

NAPLES HEAVILY ATTACKED

The battleship, merchant shipping, docks and the railway station at Naples were objectives of a particularly heavy attack on that frequently raided Italian city the R.A.F. said.

Returning pilots said fires blazed quickly among large motor vessels in Wednesday night's attack. A string of fires was also seen along the waterfront from the north end of the drydock to the jetty.

"Several bombs" hit buildings on the quay, rail lines were blasted and a series of thundering explosions erupted, the R.A.F. account went on.

Surveyors End Meeting With Banquet

Concluding their annual meeting held in Victoria, the Corporation of British Columbia Land Surveyors staged a banquet in the Pacific Club Thursday evening, when the members exchanged stories of early days of surveying. Shown seated at the head table are, from left to right: A. D. Freeland, chief mining engineer for the Province; W. C. McElhanney, Vancouver, newly-elected president; Hon. C. S. Leary, Minister of Public Works; Lieut.-Colonel F. C. Underhill, past president and chairman of the banquet; and Alderman Archie Wills.

For Bad Winter Coughs, Mix This Remedy at Home

Quick Relief. Big Saving. So Easy. No Cooking.

This well known recipe is used by many thousands of housewives, because they have found that it gives them an effective, dependable remedy for distressing winter coughs. It's so easy to mix—a child could do it.

From any druggist, get 2½ ounces of Pinex, a compound containing Norway Pine and palatable guaiacol, in concentrated form, well known for its effect on throat membranes.

Then make a syrup by stirring two cups of granulated sugar and one cup of water a few moments, until dissolved. It's no trouble at all, and takes but a moment. No cooking needed.

Put the Pinex into a 16 ounce bottle and add your syrup. This gives you 16 ounces of cough remedy, unusually quick-acting and dependable, and you get four times as much cough medicine for your money. It never spoils, and is very pleasant—children love it.

You'll be surprised by the way it takes hold of severe coughs, giving quick, satisfying relief. It loosens the phlegm, soothes the irritated membranes, and helps clear the air passages. Money refunded if it doesn't please in every way.

Society and Women's Affairs

War Effort Is Subject Of Address

The first business meeting of the year was held by the Victoria Liberal Women's Forum yesterday afternoon at headquarters, Mrs F. J. Mitchell, the president, in the chair. The treasurer's report showed a satisfactory balance in the bank.

The speaker of the afternoon was sixteen-year-old Ernest McCoy, a high school student, whose address was on "Canada's War Effort." The speaker dealt first with the great expansion in the army, navy and air force, also with the many auxiliary services organized to serve the men in uniform. The army now has 50,000 men in England, fully trained and equipped, with reserve divisions training in Canada, the speaker pointed out. The navy had expanded to 155 ships and had taken an active part in convoy duty, patrol work and in co-operating with the Royal Navy, at a loss of three ships to date. More ships were being built, he said, and a naval college would shortly be opened in Victoria.

AIR FORCE INCREASED

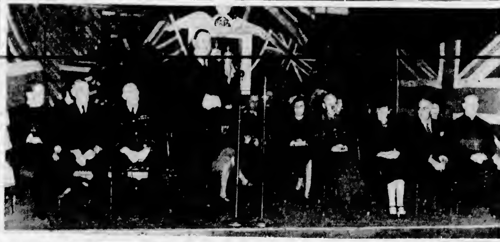

The air force had been increased to 2,000 officers and 29,000 men with three squadrons operating in England. The Empire Air Training Scheme had 103 units in operation and a large number of students enrolled. Although Canada was building planes, it was still necessary to purchase engines in the United States and Britain. The two war loans had been over-subscribed and war savings stamps and certificates have helped to provide money to carry on. War cost was estimated at one billion dollars per year, but this would be increased as more equipment was turned out by industries converted to wartime production. Mr McCoy told the audience that eight plants were now producing shells and others would soon follow suit.

AID FARMERS

Attention was drawn to the fact that peacetime production must also be kept up all along the line, particularly in the farming industry. Markets for farmers were now only found in the United States and Britain and the Government had done much to help the farmer with marketing boards for various products. Canada now supplies Britain with bacon, a market formerly held by Denmark and in addition was supplying much fish and tinned milk.

Mrs. J S Akins moved the vote of thanks to the speaker and the president hoped it would be the first of a series of such talks to keep the forum members informed of what Canada is doing.

Tea was served from a table centred by a bowl of pink tulips, the convener Mrs A A McKinnon, being assisted by the ladies of Oak Bay Ward, with Mrs A C. Ross and Mrs. DeBlaquiere presiding at the urns. The soloist for the afternoon was Mr John McAllister, who sang "I Love Life" and "Sylvia," the accompanist being Mrs. Adele Ramsay.

The January meeting of St Columba's W A. was held on Monday afternoon at the home of Miss H. L Milne, Portage Road. Intercession and prayers were led by Mrs. Hitchcox, and in the absence of the educational secretary Miss Milne read the Scripture lesson. Two new members were welcomed, Mrs Partridge and Mrs Raynor, the latter having been a member of the Prince Rupert Branch, and in the absence of the president kindly consented to take the chair. Minutes of the last meeting were adopted and as the books have not yet been audited, a tentative annual report was submitted. Secretarial reports showed financial increases but a slight decrease in membership was shown by the Living Message group. An entertainment committee was appointed to augment funds of the branch, which is composed of Mrs. C. Cue, Mrs G. Watling and Miss E. Brown. Mrs. K Brown and Mrs G Watling were appointed as delegates to attend the annual and monthly meetings of the diocesan board. Members were asked to remember that in future the meetings will be held on Monday instead of Tuesday, the next to be held at the home of Mrs F Stacey, Snowdrop Avenue, on February 3.

A new project was launched at a meeting of the Y W C A board yesterday at the association headquarters, Dr Olga Jardine in the chair. An effort will be made to make Victoria take its full share. Under the chairmanship of Mrs K. Wright, a new committee has been formed to promote health education projects, emphasizing nutrition and social hygiene. The group is in consultation with health officials and agencies who expressed interest and a desire to help. The board has planned to hold the next luncheon gathering on Tuesday, January 21, and reservations are being received. The annual meeting will be held on February 11.

Braithwaite; social secretary, Mrs G. Aldous. Tea was served by Mrs L Stevens. The guild will hold its next meeting at the home of Mrs E D Sheringham.

Alpha Group

Mrs J T Williams, the president, was hostess to the Alpha Group of Metropolitan W A at her home on Thursday afternoon. Reports of the work done and the amount raised were very gratifying. On February 13, the meeting will take the form of a donation party at the home of Mrs F H Parsons. The devotional exercises were taken by Mrs F H Parsons and Miss E Harle. At the conclusion of the business meeting, tea was served by Mrs J T Williams and a social hour was enjoyed.

RAINES—ALLISON

Tall baskets of chrysanthemums arranged before a long mirror, made a beautiful setting for the marriage which took place on Thursday evening at the home of the bride's brother and sister-in-law, Mr and Mrs Hugh Allison, 402 Craigflower Road, when at 8 o'clock Rev. William Allan united in marriage Clara Mabel Fraser, younger daughter of Mr and Mrs A L Allison, Lonsholme Road, and Mr John Victor Raines, only son of Mr and Mrs P Raines, Keating.

To the strains of the "Bridal Chorus" played by Mrs W Garnham the bride entered the room on the arm of her father, and looked charming in an afternoon dress of accessories. Her arm bouquet was mist rose chiffon with poudre blue composed of Ophelia roses and white carnations. Mrs Carl Allison, sister-in-law of the bride, attended as matron of honor, in a becoming dress of Air Force blue crepe with maroon accessories. She carried an arm bouquet of pink snapdragons and white carnations. Mr Carl Allison was the best man. During the signing of the register Mrs Garnham accompanied Mrs Hugh Allison as she sang "Because."

Mrs Allison, mother of the bride, welcomed the guests in a plum-colored dress with black accessories and was assisted by Mrs Raines in a navy blue ensemble with wine accessories. Both wore corsage bouquets of chrysanthemums and maidenhair fern. The supper table which was centred by a three-tier wedding cake was covered with a hand-embroidered cut work cloth and lighted with tall cream tapers.

After a honeymoon spent Up-Island, Mr and Mrs Raines will make their home at Keating. For going away the bride donned a navy blue coat with matching hat and accessories. Among the many gifts received was an electric clock from the staff of Lillian West Bakery, where the bride was employed.

Honor Bride-to-Be

The Misses Winnie and Amy Kirchin were hostesses on Thursday evening at a miscellaneous shower given at their home, 146 Regina [illegible] Simpson whose marriage will take place the middle of next week. A corsage bouquet of pink and white carnations was given to the bride-to-be upon her arrival and later a container patriotically decorated in red, white and blue, and holding the many pretty gifts was presented to her. An evening of games was enjoyed and the winners received prizes. A buffet supper was served by the hostesses at a late hour. Mrs G. W. Kirchin presided at the table, for which a vase of pink and white carnations in a cut-glass vase formed a background for the bride's cake, which centred the prettily arranged table. The guests were Mesdames J Dentith, D Smith, Walter Smith, F York, E Callaghan, W Graves, J Mackie, H O Simpson, H Willmott, W Inkpen, S Fulton, G Kirchin, and the Misses Alice Stocken, Edith Alcock, Barbara Collins, Edith Neilson, Joyce Pritchard, Thelma Smith, Irene Willmott, Yvonne Simpson, Terry York, Shirley Anne Markie.

Progress Is Made by W. A. Of St. Mary's

The St Mary's Senior W A. met in the hall on Thursday afternoon, the president, Mrs. A. A Bengough, in the chair. A tribute of sympathy was passed to Mrs. F. L. Stephenson in the death of her husband. Miss Henley gave an interesting chapter from the new study book, "Conflict."

At the annual meeting, which followed, the president, Mrs Bengough, gave a splendid review of the year's work, stating that there had been progress in almost every department of the branch's work. The increased membership had brought increased interest, which, in turn brought increased finances. She thanked all those who had assisted during the year to make this growth possible.

Hallam, reported $42 contributed to the bursary fund, an increase of $21.60 over last year. The Dorcas department also reported a splendid increase in work done by the members. Ten quilts had been made in addition to the Indian outfits, also many woolen articles contributed. The united thank offering showed an increase of $3.06, and the extra cent secretary, an increase of $6.42.

Hundreds of Guests at District Depot Dance

Entertainment on a large scale was provided for the men of the Active Force and the Reserve Force last evening when No. 11 District Depot, under authority of Lieut.-Colonel O. O. Aitken, M.C., officer commanding the depot, held a free dance at the Armoury. It was estimated that over 1,000 dancers attended and the evening proved to be an outstanding success. It is hoped that this will be the forerunner of many other such dances and that the numbers will increase as time goes on.

The committee in charge of dance arrangements included Captain A. S Page, chairman, Captain E G Dawson, Lieutenant H. Ward, Regimental Sergeant-Major L. P. James and other non-commissioned officers.

The great dance hall was elaborately decorated with flags and pennants, and in the centre on the flag-draped dais, the orchestra of No. 11 District Depot, under the direction of Sergeant H L Kemp, and consisting of ten pieces, played a lively programme of dance numbers, with many popular medleys throughout the evening.

Refreshments were served at a nominal charge. Early in the evening Major-General R. O Alexander, D.S.O., O.O.C., chief of the Pacific Defence Command, accompanied by Captain J. W Kilpatrick, aide-de-camp, was welcomed by Lieut.-Colonel Aitken, and took great interest in the evening's entertainment. By means of a loud speaker, Captain Page welcomed the huge throng and invited all guests to return to the next dance. Specially invited last evening were members of the Women's Service Corps, the Beaver Club, the Women's Ambulance Corps and other organizations, as partners for the men who were strangers in the city.

Round the walls the names of some of the famous Canadian battlefields of the last war were placed and these served as rendezvous for the dancers. Among them were "Cambrai," "Ypres," "Hill 70," "Arras" and "Lens." The dance continued until midnight.

First United Church Choir Has Election

At its annual business meeting held yesterday, the First United Church Choir held election of officers for the ensuing year, results being as follows:

Honorary presidents, Mrs H P Gregory and Miss Agnes Rennie; president, Miss Carol Menzies; first vice-president, Jay Pogson; second vice-president, Miss M Freeman; secretary, Mrs P Simmons; treasurer, John Loudoun; librarians, Mrs. R. H. Nash and Miss V. Gilham; roll secretary, Miss Evelyn Sidwell; robe secretaries, Mrs A Thompson and Miss Jean Sargison; chairman of concert committee, Mrs C A Goodwin; chairman of social committee, John Bell; auditor, S H Frame; sick visiting committee convener, Mrs G Neil Perry; press and publicity secretary, Jack Smith.

Mrs P Simmons, the secretary, read the annual report, which was adopted and passed. A fine tribute was paid to the late W C Fyfe, who for twelve years was choir leader, succeeding Jackson Hanby who retired in 1927 after twelve years splendid service. Mr Fyfe during his tenure of office conducted many oratorios, Scottish concerts, arranged for Sunday afternoon programmes at the hospital, and he was also gifted with great versatility. His passing from the choir was very keenly felt.

YEAR'S WORK

During the past season the choir presented "Solomon" (Handel), part of Shinn's "Captives of Babylon," a twilight recital at the First Baptist Church, also Gilbert and Sullivan's "Trial by Jury," given by the choir in the schoolroom of the church.

Last June the choir sponsored an organ and choral recital by Lauren B. Sykes, organist, and the choir of Hinson Memorial Baptist Church, Portland. This was a pronounced success; following the recital a reception was held in honor of the visiting choir, the guests including Dr Percy Hull, of Hereford Cathedral, England. Social evenings were held at the home of Mr and Mrs W C Fyfe, also at the home of Mrs. A. S. Christie.

John Loudoun, the treasurer of the choir, presented his annual report showing the satisfactory financial condition of the choir.

The report of the nominating committee was then received.

FOR LOYAL SUPPORT

Miss May Simpson, the retiring president, thanked the choir for their loyal support and urged that the same loyalty be given to the new list of officers. Miss Carol Menzies, the president-elect, in a few words thanked the choir for the honor of being asked to serve as president during the coming year.

Votes of appreciation were accorded to G H Peaker, the organist and choir leader, also to many others who assisted in many ways.

It was announced that Mrs C A Goodwin, assisted by members from the choir, would give a lecture-recital entitled "Romance of Scottish and Hebridean Songs" in the Chamber of Commerce next Tuesday evening.

Splendid Work Done by Cathedral Parish Guild

Officers elected by the Christ Church Cathedral Women's Parish [illegible] yesterday afternoon in the Memorial Hall, were as follows: Honorary presidents, Bishop Sexton, Dean Elliott and Mrs. Sexton; honorary vice-presidents, Mrs Spencer Elliott, Mrs. Wasson, Mrs J. Chrow and Miss Renny; president, Mrs. O. H Bissell; first vice-president, Miss M Lettice; second vice-president, Mrs A J. Parmiter; third vice-president, Mrs Spikesley; secretary, Mrs. George Miles; and treasurer, Mrs. S. R. Richardson. Dean Elliott presided over the election, and at the conclusion of the meeting Bishop Sexton paid tribute to the work of the guild and encouraged them to continue the good work, which is appreciated by the parish.

Mrs. George Miles gave the annual report, which showed that money had been raised by teas, a garden party, bazaar, concert by the Schubert Club, and a Christmas play by Mrs. E Large. The sum of $325 was donated to the church wardens as part of the guild's work.

Half the proceeds from the year's activities were given to the sewing circle, the report of which was presented by Mrs. Miles as purchasing secretary. During the year the circle received donations from members amounting to $170.25, and the sum of $119.15 was raised through activities, making a total of $289.40. Disbursements were $258.67, the greater amount being spent in buying and making articles for the service men and Red Cross. Articles to the value of $235.15 were given to the Navy, and included during the year nineteen scarves, seventy-nine pairs socks, twenty-five sweaters, seventeen pairs wristlets, sixteen pairs gloves and mitts and nineteen helmets. A letter of appreciation from Major F V Longstaff, on behalf of the Navy, was read at the meeting. The Red Cross received various garments to the value of $135.50, and to the Overseas League 150 pieces of new and old clothing to the value of $174.80 was given by the circle. Other donations were twenty-two pairs socks and two sleeveless sweaters to Victoria boys at Debert, and ten parcels to Victoria boys overseas. All packages included afghans and blankets.

TREASURER'S REPORT

Mrs. Richardson presented the treasurer's report of the guild, which showed that $[illegible] was raised during the year, with disbursements totaling $393.27, leaving a bank balance of $6.39.

At the general business meeting which followed, it was decided that the members cater for the Synod luncheons on February 19 and 20. Mrs J. W. Robinson will be tea hostess at the meeting of the guild, to be held in the hall on February 14.

RIGHT!

A farmer was testing the intelligence of a new hand who was regarded by colleagues as a simpleton.

"In yonder stable," exclaimed the farmer, "I keep a donkey. If I fill three buckets — one with milk, another with water and a third with ale—which will Neddy drink?"

The simpleton scratched his head. Then he replied: "He'll drink the water."

"Quite right, my boy. And why is that?"

"Because he's an ass," concluded the simpleton with a vacant smile.

CHAPTER LXIII

"Tell me about it," and Stone drew the other into a small reception room and closed the door. "Was she killed?"

"She must have been. She was found by a servant lying on the floor of the study with a foil deeply piercing her throat. Doctor Gregg who came over at once, says she had been dead over an hour."

Stone went up to the study, tapped at the door, and Dr. Gregg opened it.

"Oh it's you," the medical man said, in a tone of relief. "Come right in."

"Was Esme fencing?" Stone inquired. "I didn't know she knew how."

"I don't know whether she was fencing or not, but she was killed by a foil, and I hope you can pick the murderer! I don't want to.

"Meaning that you already suspect some one you don't want to accuse," was the understanding response. "Who were in the house?"

"I don't know. I haven't asked any questions. I state the cause of death, and my duty is done. Look for yourself. As you see, the girl is stabbed in the throat, just above the clavicle. Exactly the same place where the cut appeared on Vivian Forrest."

Police Inspector Eastman came then, and said Dr. Peterson, the Medical Examiner, would come as soon as he could. Gregg told Eastman all he knew about the death of Esmeralda.

"Who found the body?" asked the inspector.

"One of the servants, I was told," Stone volunteered.

"Which one? Get her here, or him—I'll go myself."

Eastman opened the study door, to find Rugg, the butler anxious to ask if he could be of help.

"Yes," Eastman almost shouted at him. "We want help. Who was it that discovered the body of Miss Fane?"

"That would be Jansen, sir. Do you want him?"

"Yes, at once. Where is everybody?"

"I don't know, sir, I'll get Jansen."

The handyman appeared, a stolid Swede, but with his wits about him.

"You first saw this lady—dead?" Eastman asked him.

"Yes, sir, I found her on the floor, a-lying still."

"What were you doing in this room?"

"I was not in this room, I was in the hall, there, polishing the brass doorknobs. When Mimi, who is Mrs Forrest's maid, went into the study and ran out again with a scream.

"Then what did you do, Jansen? Tell the story yourself."

"When I looked in the study I saw the lady lying on the floor. I closed the door again, and ran downstairs to find somebody. I found Rugg and told him, and he said we must find Mr. Austin. I told him Mr. Austin was in his room sleeping, and Rugg said we must wake him. Rugg knocked at his door, and Mr. Austin called out, 'Who's there?' and Rugg asked him to open the door and he did—"

"Was it locked?" Stone interrupted.

"No, sir, but Rugg didn't like to open it himself, sir. We heard Mr Austin bump out of bed. He was put out at being waked but Rugg told him about it, and he was across the hall and into the study at once.

"What did he say, when he saw Miss Fane?" Stone asked.

"He said, 'Who has done this? and then he went to the open window, for a moment, as if pulling himself together like. Then he turned back to us, and said to go for Mr. Haskell and he told Rugg to telephone Doctor Gregg to come right over."

"Go and find Mr. Austin," Eastman ordered the man. "No matter what he is doing, tell him I said he must come right up here."

AMERICAN OFFICERS VISITS CANADIANS

SOMEWHERE IN ENGLAND, Jan. 10 (CP).—A United States Army mission of four officers lunched at Canadian Corps Headquarters today with Lt.-Gen. A G L McNaughton two leading officers of a British armored formation, and Wing-Cmdr. Robert McKay, leader of a Canadian Army Co-operation Squadron.

The Americans, Lt.-Col. Vernon E. Pritchard, Lt.-Col Kennedy, Maj Riley F Ennis and Capt. Bruce C Clarke, are all specialists in particular army operations.

Home Nursing Classes to Be Begun Shortly

A new series of Red Cross home nursing classes will be commenced shortly, and all those interested are asked to telephone or send in their names to the Red Cross headquarters, 605 Courtney Street (telephone G 3818), stating whether they wish to attend a class in the afternoon or evening, and giving telephone number, if any.

A course consists of twelve lectures, and all classes for Greater Victoria will be held at Room 230 Pemberton Building or in the old Oak Bay High School, Oak Bay Instructors are being arranged for by a committee under the chairmanship of Miss Creasor, superintendent of the V.O.N.

The fee for this course is $1.00, which includes the cost of the Canadian Red Cross Home Nursing Manual.

The object of these classes is to give all those taking them the ability and confidence to undertake nursing in the home, especially in an emergency when, owing to war conditions, fully-trained nurses might not be available. This course does not qualify a candidate for V.A.D. work. To do this it is necessary to hold St. John Ambulance certificates for both first aid and home nursing.

Those who register now will be advised as soon as the classes are arranged.

The original twelve months' sentence and the $200 fine were imposed by Magistrate H. S. Wood in police court at the time of Ravenor's conviction.

A number of documents seized in his book store were exhibited at the trial.

"Dutch" Harrison Moves Into Lead In Oakland Event

Out in Front of Field at Halfway Stage With 134, Three Strokes Ahead of Paul Runyan—Shoots 66 Yesterday—Freddy Wood Is Well Up With 72 and 70 for Total of 142

By RUSS NEWLAND
Associated Press Sports Writer

OAKLAND, Cal., Jan. 10 (AP)—Long, lean E. J. "Dutch" Harrison, not the original Arkansas traveler, but practically as methodical, rammed home an eighteen-foot putt on the final green today, chalked up a new low round of 66 and found himself leading the field at the halfway mark of the seventy-two-hole $5,000 Oakland open golf tournament.

The four-under-par second round gave the Little Rock entry a two-day total of 134, a three-stroke lead over his closest rival and an impressive advantage over a field composed of most of the leading professional shotmakers in the country.

Freddy Wood, the blond Vancouver professional, was well up with a neat 142. The young Canadian, who placed in the money at the recent Los Angeles open, scored a perfect 70 today to add to his 72 of yesterday.

He was tied at 142 with Al Zimmerman, of Portland, Ore., Denny Shute, ex-P.G.A. standard-bearer, and Ben Hogan, the two best golfers in the country last year.

Harrison, an old hand himself at the business of bagging birdies and pars, teed off today with a snappy 68 behind him. The gallery overlooked him in favor of some of the brighter lights of the divot-chopping brigade. He hadn't figured in the 1940 tournament swing after winning the Bing Crosby and Texas open tournaments the year before.

BACK IN LIMELIGHT

The round today, coupled with a first-round effort not exactly dull, put Harrison back into the limelight. He carded one of 34-32, compared with the 35-35 par figures for the Sequoyah course.

A fifteen-foot putt gave him a birdie three on the first hole, but he missed a three-footer to take a bogey five on the third. He came back with a two-footer for a birdie four on the sixth, dropped a ten-foot putt for a birdie three on the tenth and then three-putted the eleventh for another bogey five.

A birdie two on the 245-yard fourteenth resulted from a forty-foot chip that ran true to the cup. He followed with a birdie three on the fifteenth and polished off the round with an eighteen-footer on the eighteenth for a birdie four for the best eighteenth-hole score of the tournament.

Three shots behind Harrison at the thirty-sixth trailed Paul Runyan, of White Plains, N.Y. Runyan carded a 33-34—67 round to couple with yesterday's 70 for a total of 137.

Jimmy Demaret, of Houston, Texas, winner of this tournament a year ago, ended the day in a tie with Harry Cooper, of Chicopee, Mass., at 138. Demaret posted a 70 and Cooper a 68 for their second round.

William A. "Red" Francis, of Altoona, Pa., and Leonard Dodson, of Kansas City, Mo., shared a two-way tie at 140 strokes, the former coming in with another 70 and Dodson bagging himself a neat 67.

The first-round leader, Lloyd Mangrum, of Oak Park, Ill., needed seven more shots than yesterday and finished in a tie at 141 with six others, including the current United States open champion, Lawson Little. The group also numbered two amateurs, the former national titleholder, Marvin "Bud" Ward, of Spokane, and Ernie Pieper Jr., of San Jose. Little and Pieper had second-round 68s and Ward wound up with a 70.

FAVORITES TRAIL

Back in the field were such nabobs of the game as Byron Nelson, national P.G.A. champion, with 146, Ralph Guldahl, twice former United States open titleholder, at 145 and Olin Dutra, also an ex-national open kingpin, at 148. Dutra floundered with a 78 today, but Guldahl came back strong with his 68 after yesterday's weak 77.

Two of the sharpshooters well up were Denny Shute, ex-P.G.A. standard-bearer, and Ben Hogan, best golfer in the country in 1940. Each reached the halfway station with a total of 142.

Bright sunshine, no wind and a drying course enabled most of the sharpshooters to get back onto their games.

The low ninety professionals and fifteen amateurs qualified for the last two rounds, one each tomorrow and Sunday.

Second-round scores included:

*Marvin Ward, Spokane	70-71—141
Al Zimmerman, Portland	71-71—142
Fred Wood, Vancouver	72-70—142
Emery Zimmerman, Portland	77-71—148
Joe Mozel, Portland	74-74—148

TEN MARKS ARE BEATEN

Olympic Track Records Erased by United States Stars During Year

By DANIEL J. FERRIS
(Secretary-Treasurer, United States Amateur Athletic Union)

NEW YORK, Jan. 10 (AP)—Ten Olympic records were broken and another equaled by the sons of Uncle Sam in the track and field section of the 1940 Olympic Games and once more the wearers of the Stars and Stripes carried off the team honors.

That is about how the opening sentence of this review would have read had the War not caused cancellation of the 1940 Olympic Games. However, the statement is not wholly fanciful. As a matter of fact results of the "American Olympics"—National A.A.U. championships—show the winners in that meet bettered ten Olympic records and equaled the record in another event.

A comparison of the performances of our best athletes during the past two years reveal the athletes of 1940 excelled those of 1939 in fifteen of the seventeen Olympic events.

Despite the lack of international competition, all the indoor and outdoor meets will be held as usual this year.

The mile races indoor promise to furnish most thrills for the fans. Walter Mehl, who ran the metric mile (1,500 metres) in national record time last Summer; Chuck Fenske, John Munski, Leslie MacMitchell, Louis Zamperini, Gene Venzke, Phil Graves and Paul Moore are ranking contenders for the mile crown.

CARPET BOWLING

In matches played this week A.O.F. Friars won from A.D.F. Sherwood, 17-15, and Willows Rangers defeated A.D.F. Co-Operators, 18-15.

BANQUET FOR GRID SQUAD

Revellers, Three-V League Champions, Entertained At Annual Dinner

Victoria's victorious Revellers champions, were feted last night at the annual banquet at the Dominion Hotel. The function was attended by players, club sponsors and special guests, the party being close to the half-century mark.

It was a happy event, and the air simply reeked with friendliness and good feeling, as grid stars of Victoria's Revellers, champions in their own right and proud of it—gathered around the festive table as guests of the Victoria Revellers Football Club.

Presentations and messages of thanks were the order of the evening, with Paymaster Lieutenant Tommy Stevenson, R.C.N.V.R., popular president of the club, making a grand master of ceremonies. Tokens of appreciation for services rendered were presented to Brother Whalen, assistant coach, and J. Spellman, popular caretaker at Macdonald Park.

George Deacon, coach of the club, was in line for a special gift, a jumbo sweater in the Revellers' colors—(Chairman Tommy Stevenson stated that the members were fed up seeing their coach in the North Shore colors) and then jokingly remarked that perhaps the size of the wearing apparel was responsible for the delay. However, he assured Coach Deacon that the sweater would be delivered upon arrival from Vancouver.

COACH DEACON SPEAKS

Coach George Deacon made an eloquent appeal to those present to keep the game of football going at all costs. He stated there was a job for everybody, players and non-players, and explained that only by complete co-operation would the game continue to prosper. Deacon extended his thanks to Brother Whalen and Jimmy Smith, assistant coaches, and to every member of the club, subs, first-strings and regulars, all of whom contributed their little bit to the Revellers' championship drive.

Benny McMillan, former manager of the Canadian Football Club, presented a scroll to Brent Murdoch, from the All-American selection board, who dubbed the local backfield star as the "greatest halfback in the world." Murdoch was too overcome to speak when his colleagues yelled "speech."

A wedding gift in the form of a handsome silver tray was presented to Benny McMillan by the players and officials of the Victoria Revellers Football Club.

Sponsors of the club in the Three-V Canadian Football League were introduced during the evening, and each received an ovation from the players.

Motion pictures of the Revellers-Bulldogs game and local junior fixtures were shown by Jimmy McKeachie.

HOPPE WINS CUE HONORS

Collapses During Final Block but Conceded Title by Schaefer

CHICAGO, Jan. 10 (AP)—Willie Hoppe, world's three cushion billiards champion, collapsed during the last block of his challenge match with Jake Schaefer, of Cleveland.

While Hoppe was rushed to a physician's care, Schaefer conceded that the New Yorker had retained the championship.

Hoppe was leading 420 points to 300, when the match was interrupted. He had won the first five sixty-point blocks of the challenge match, but lost in the play last night and this afternoon.

Billiard fans feared he would be unable to defend his championship in the tournament opening here next Monday. Last year he won the three-cushion crown, achieving twenty victories without a defeat.

In this afternoon's play, Hoppe displayed his worst form of the week while attempting to fight off an attack of intestinal flu.

Hoppe completed the afternoon block of sixty points, while Schaefer was scoring eighty-five points in 118 innings. The cumulative score for the seven sixty-point matches left Hoppe ahead by seventy-five points, the champion having 420 points to Schaefer's 345.

NOVA WINS EVERY ROUND IN SCORING NEW YORK VICTORY

Californian Punches Out Decisive Triumph Over Pat Comiskey—Latter Goes Down Three Times—May Get Louis Bout—Tony Zale Wins in Chicago

NEW YORK, Jan. 10 (AP)—Lou Nova, the California clouter, came a long way back along the heavyweight "glory road" tonight by punching Pat Comiskey all over Madison Square Garden's ring, to win an easy ten-round decision in his return to boxing's big time.

Nova weighed 200¾, Comiskey 204¼.

With a surprisingly large crowd looking on, Nova made it strictly "no contest." He won going away, just as he pleased. He floored the Paterson, N.J., youngster twice, cut him over both eyes with a slashing straight left and drew blood from so many other gashes on Pat's face that it looked, at times, as though a bottle of catsup had been dumped on him.

The decision was unanimous. The Associated Press score card gave Nova every round, with only one, the third, anywhere near close.

Thus the ex-collegian from California came back, just as he has been boasting he would. Toppled from ranking No. 1 contender for Joe Louis' crown sixteen months ago by Tony Galento, and laid low since then by an illness which forced him into hospital for several months, he made good his claims that he not only belonged up there, but that at 200¾ pounds he was bigger and stronger and better than ever.

DROPPED TO KNEE

Comiskey, stopped by Max Baer in less than a round last Summer and badly beaten tonight, dropped to one knee from a right-hand shot in the first round, but pulled himself right up without a count by clasping Lou around the waist and raising himself. He slipped to one knee in the second, but it was not a knockdown.

Then, in the tenth, as Nova battered him unceasingly about the body with both hands, he couldn't stand the punishment any longer and again slumped to one knee, this time with his right hand resting against the ropes, and remained that way until Referee Billy Cavanagh counted nine.

To a crowd of 12,801, who contributed to a gross gate of $30,482, Nova was convincing in his boxing and punishing, if not deadly, punching power. Comiskey couldn't get out of the way of Lou's straight lefts. As early as the fifth round, both of Comiskey's eyes were slashed—the right one twice—and there was a long, diagonal cut over his upper lip.

ZALE WINS EASILY

CHICAGO, Jan. 10 (AP)—Tony Zale, of Gary, Ind., recognized as middleweight champion by the National Boxing Association, decisively defeated Steve Mamakos, Washington, D.C., in ten blistering rounds in the Chicago Stadium tonight.

Mamakos, displaying unbelievable stamina and ring courage, absorbed Zale's two-fisted attack without retreating and was always crowding in face of the savage fire.

Zale knocked Mamakos flat with a left hook and a right cross to the chin in the fourth round, but the bounding Greek bounced up without taking a count. He hit the floor again in the ninth from a left hook and again jumped to his feet immediately.

The battle was witnessed by 11,064 spectators with receipts of $18,674.

Zale's N.B.A. title was not at stake because the bout was fought over the weight.

CHICAGO GOALIE QUITS ICE GAME

CHICAGO, Jan. 10 (AP)—Paul Goodman, thirty-three-year-old veteran who has given way to Sammy Lo Presti as the Chicago Black Hawks' regular goalkeeper, announced his retirement today from professional hockey.

The National League Hawks planned to send Goodman to Kansas City, of the American Association, but Goodman said he preferred to return to his home in Winnipeg.

TABLE TENNIS

Four Jacks and Westerns chalked up victories in handicap table tennis matches played last night at the Strathcona Hotel. Jacks defeated the Hornets, 14-9, and Westerns turned back V.H.S. Alumni, 22-10.

HUSKIES WIN GAME

SEATTLE, Jan. 10 (AP)—Washington opened its Pacific Coast Conference basketball season here tonight with a 45-43 victory over Idaho in a battle which see-sawed throughout the first half.

The half-time score was 26-23 in favor of Washington.

INDIANS SIGN YOUNGSTER

CLEVELAND, Jan. 10 (AP)—Cleveland Indians of the American Baseball League today announced the signing of Vern Freiburger, seventeen, Detroit's prize sandlotter of 1940. He is a first baseman.

WAR SAVINGS STAMPS BURNED BY SAANICH BOARD AT BRENTWOOD

The Saanich Board of Trade held its regular meeting at the Brentwood Women's Institute Hall, Brentwood Bay, on Monday evening, W. D. Wallace presiding. A discussion on Indian affairs resulted in a recommendation being sent to the authorities asking for an increase in the food allowance to aged Indians. The committee on War Savings Stamps reported the sum of $64.50 in War Stamps was realized from the recent entertainment held at the Agricultural Hall, Saanichton. As the purpose of this entertainment was to stimulate the sale of War Stamps and help Canada's war effort, the members decided to burn the stamps, thus making a direct contribution to the Dominion Government for this cause. Rev. J. J. Cyr was appointed to destroy the stamps and the burnt offering was witnessed by the members present. At the next meeting nominations of officers will take place. Candidates will be voted on at the meeting in March.

Watson and Apps Gain on Scoring Pace-Setter in National League

By The Canadian Press

Both Phil Watson, of New York Rangers, and Toronto's Syl Apps, climbed within two points of the leader, Bill Cowley, of Boston Bruins, Thursday night, in the National Hockey League's individual point-getters' race, Apps gaining a goal and Watson an assist while Cowley was idle. Bryan Hextall, of the Rangers, leading in actual goals, sniped another to bring his total to fourteen and pull into a fourth-place tie with his teammate, Neil Colville. Syd Howe, of Detroit Red Wings, was the only other leader to score, bagging one goal to strengthen his hold on sixth berth.

VICTORIA BOYS RECEIVE CALLS

Gordon Head Camp Lads Asked to Volunteer for Evening Training

Victoria lads of the first two groups under the Dominion mobilization plan who have done their Head Militia Training Centre have been asked to report to the Reserve Force unit to which they were posted—not under orders to take evening training along with the volunteers of the unit, but to enable them if they so desire to transfer to other Reserve Force units.

Victoria boys who went through the Gordon Head camp were posted, at the end of the training periods to the 3rd Battalion, The Canadian Scottish Regiment, R.F., and were held in the supernumerary list. District Headquarters has authority, however, to transfer them from the supernumerary list to the regimental list of the parent battalion, to bring it up to strength, and that course is now being followed.

The lads have the option of naming other Reserve Force units to which they would prefer to be posted, and it is to enable them to signify their wishes in this respect that the instructions to report to the battalion have been given.

At the same time, however, it is hoped that most of the trainees will volunteer to take evening training with the units to which they are posted, in order that the benefits of the initial period of camp training may not be lost.

After undergoing thirty days of training in camp, the lads can not be compelled to take evening training for a year thereafter, but it is hoped that they will be willing to do so. The Reserve Force units have lately fallen below strength, through transfers to the navy, the army Active Force and the air force.

This call to Gordon Head trainees to report to the 3rd Battalion by January 15 has been made only to lads within a reasonable distance of Victoria. About 175 boys in Greater Victoria have received notices, and it is probable that similar calls will be made later upon Victoria lads who entered the Gordon Head camp yesterday in the third 1,000 to take the thirty-day course of camp training.

ADDRESSES CLUB ON DENMARK BEFORE WAR

QUALICUM BEACH, Jan 10—The Qualicum-Parksville District Canadian Club assembled in the Community Hall on Wednesday evening to hear an address by Mrs Downs, of Victoria, her subject being a "Talk on Denmark." Mrs Downs recently returned from Denmark where she resided for three years prior to the outbreak of world hostilities. The time spent there gave her authentic information which was very ably communicated to her listeners. The domestic features of the address were eagerly taken be the ladies present. After the talk many questions were asked the speaker.

"ESCAPE" WILL BE AT CAPITOL

Eleven Outstanding Actors Are Headed by Norma Shearer and Robert Taylor

[...] character actors, headed by stars Norma Shearer and Robert Taylor combines to bring to the screen one of the most thrilling best-sellers of the past year, Ethel Vance's "Escape." The picture opens today at the Capitol Theatre.

Miss Shearer is seen as the Countess von Treck, who finds herself involved in the desperate attempt of American artist Mark Preysing to rescue his mother, ex-actress Emmy Ritter, from death in a concentration camp. Taylor enacts young Preysing, with Nazimova, star of silent films, returning to the screen for the first time in fifteen years, as Emmy. European star Conrad Veidt appears as the General, lover of the Countess, and ultimate menace of Emmy's safety.

PAUL MUNI STARS IN COMING FILM

Has Role of Pierre Radisson in "Hudson's Bay" at Capitol Next Week

It's an entirely different Paul Muni they unveil in "Hudson's Bay," 20th Century-Fox adventure film which opens next Thursday at the Capitol Theatre. Starred as Pierre Radisson, renegade, traitor, rogue, Paul Muni turns in a performance rated as the best of his long career.

"Hudson's Bay" depicts the thrilling adventures of the fabulous figure who saved a great dominion for the ruler who had ordered him hanged. Set in the vast savage wilderness of the frozen North, this powerful drama has won "rave" comments at all preview showings. Paul Muni is supported by a brilliant featured cast which includes Gene Tierney, Laird Cregar, John Sutton and many others.

CADET THEATRE The mirthful mystery picture featuring Bob Hope and Paulette Goddard which ends today at the Cadet Theatre, is titled "The Ghost Breakers," who are people who rid haunted houses of these pests. The co-stars had plenty to do in this respect.

RIO THEATRE Gabby Hayes, whose beard is the most essential part of his screen makeup started out by getting his whiskers from the makeup department. It became such a nuisance to put the contraption on securely and to take it off without tearing part of his skin, the actor decided to raise his own. "The Ranger and the Lady," with Roy Rogers and Jacqueline Wells, is his most recent picture for Republic, and ends today at the Rio Theatre.

ATLAS THEATRE "Strike Up the Band" which ends today at the Atlas Theatre, stars Mickey Rooney and Judy Garland. Mickey and Judy play the roles of two small-town high school young[sters] who build their own band and reach national fame. Paul Whiteman and his band are featured in the story as the big band that gives the little band its chance for fame.

BEAUTIFUL FILM COMING TO CITY

Movie Short Depicting Attractions Of Province to Augment Adventure Story

An added attraction at the world premiere here on January 16 of "Hudson's Bay," Hollywood epic which tells of the early history of the Company of Adventurers, will be the first public showing of an unusually attractive travel short entitled "Beautiful British Columbia."

Designed primarily to arouse the interest of tourists, "Beautiful British Columbia" has already won complimentary attention in the film industry as setting a new style in travel shorts.

The film is unique in its "rapid" editing and matched music. In ten minutes it displays 180 scenes from all parts of British Columbia, contrasting modern cities with primeval wilderness. The musical background has been woven so expertly that even soldiers marching on the screen step out in time with the tune.

"Beautiful British Columbia" was produced for the British Columbia Government Travel Bureau of the Department of Trade and Industry by Leon C. Shelly, Vancouver, and took four months to produce, spanning the Spring and Summer seasons in the actual shooting.

Hon. W. J. Asselstine, Minister of Trade and Industry, was responsible for the project, and has been congratulated by all who have seen the picture previewed.

"Beautiful British Columbia" is being distributed by Columbia Pictures. It will appear in approximately 6,000 theatres in the United States with a view to attracting as many tourists as possible.

PLAZA THEATRE "The picture nobody dared touch" sums up the story behind James Roosevelt's presentation of "Pastor Hall," the sensational and gripping expose of life in Nazi-ridden Germany which ends today at the Plaza Theatre. Made in England, with a cast which includes Wilfrid Lawson, Nova Pilbeam and Seymour Hicks, the picture's American rights had no takers when offered to the United States.

DOMINION THEATRE Marlene Dietrich portrays a lovely cafe singer of the South Seas in her new Universal film, "Seven Sinners," now playing at the Dominion Theatre. John Wayne, who is rapidly climbing to top rank among the male stars of the screen, plays opposite Miss Dietrich and they head an outstanding cast that includes Albert Dekker, Broderick Crawford, Mischa Auer and Billy Gilbert.

YORK THEATRE Critics everywhere, particularly in New York, London, Toronto, Winnipeg and Vancouver, predict confidentially that "Design for Murder," which is now showing on the screen of the York Theatre, will be on all critics "best ten" list this year. Its unusual ending indicates that it should be seen from the beginning. Suspense follows suspense in this picture answering the intriguing question of "Is Murder Ever Justifiable?"

OAK BAY THEATRE Hollywood has hit on another happy romantic [tea]ming with Greer Garson and Laurence Olivier perfectly cast as the spirited lovers in the picturization of Jane Austen's amusing comedy, "Pride and Prejudice," which ends today at the Oak Bay Theatre.

COAST TOWN HEAVILY HIT

Continued from Page 1

"smothered" the town with incendiaries and explosives.

POST BLASTED TO BITS

One high explosive bomb fell directly on an air raid precautions post, blasting it to bits.

London was free of raiders through the night.

Other Nazi planes were reported over a town in Western England in the vicinity of Liverpool, and in South Wales.

Liverpool and the other Merseyside towns reported the unusual experience of listening to circling German planes for several hours without the accompaniment of either bomb blasts or gunfire.

Finally the "nuisance raiders" left without bombing.

On Thursday night German raiders hurled several hundred fire bombs on London in one of the most widespread series of raids in recent weeks, but the Government announced no serious fires were caused.

One large district of the capital was the object of an especially heavy attack, and most of the incendiaries were loosed there in an apparent effort to repeat the destruction inflicted on the heart of the city in a major fire raid, December 29.

SQUADS DO FINE WORK

Newly-organized fire bomb fighting squads doused the incendiaries almost as fast as they fell, and "emerged with flying colors," a communique issued by the Ministry of Home Security said. In one borough alone, it added, twenty small fires were put out without any call on the regular fire brigades.

In London, one high explosive missile dropped in a crowded street shortly before midnight, and caused several casualties. Two persons were killed in one district of the capital when an anti-aircraft shell fell to earth before exploding.

A shower of fire bombs was loosed on a Northwest town, but no serious damage was reported. In Southern England, an explosion in the sky during a barrage by the ground guns shook houses ten miles away.

Liverpool was raided at frequent intervals over a period of several hours but only one fatality was reported.

NEEDS ARE ESTIMATED

ment of the structure of the active army.

ACTIVE ARMY STRENGTH

Present strength of the active army is estimated unofficially at around 175,000. As many men who will go into the army in the next year will replace men who go out for one reason or another, the 80,000 estimate does not necessarily suggest an active army of 250,000.

The naval strength is unofficially placed at around 14,000 now and the estimate of 5,400 required in 1941 is partly based on the anticipation of additional ships coming into service, as forecast some time ago by Navy Minister Macdonald in the House of Commons.

In relation to the present strength the air force estimate of additional requirements is larger than in either of the other services. The present strength is placed unofficially at about 40,000 and the estimated requirement is 31,800.

This is expected to meet the needs for ground staff at the British Commonwealth Air Training Plan schools due to come into operation in 1941 and stepping up the capacity of schools already in operation, as well as furnish recruits for training as pilots, observers and air gunners for overseas service.

PROBLEM

"Daddy," said little Daisy, "I want to ask you a very important question."

"Go ahead, my dear," said father. "What is it?"

The child hesitated for a while, then said: "Well, Daddy, tomorrow's my birthday, and I'd like to know what you think I'd like to have for a present."

A Message for Sunday

By Very Rev. Spencer H. Elliott, D.D., Dean of Columbia

High explosives are much in evidence in these troublous times, but they have not enough delicacy of operation for the problem that confronts us when we deal with reconstruction. The adjustment of human nature needs a different kind of touch. We have not to rebuild a system; we have to regenerate a world of throbbing humanity. Its hopes, its fears, its ideals, its passions, cannot be forced into a dictator's mould. There is a soul that has to be touched; there is a life that has to be redeemed; there are faculties that have to be won and consecrated for service.

The Incarnation of our Lord Jesus Christ is God's answer to the problem, for the Saviour has identified Himself with human nature. His coming was a miracle, but there was no miracle by which He escaped our perplexities. He carried within Him His Divine power, but never used it to ease things for Himself. He accepted our human limitations as the conditions of His work. He became Very Man. He dealt with life as He found it. He went through the entanglements; He shirked nothing; He overcame

The Incarnation means that God's love and power and grace are available in the midst of the world as it is. None of men's problems, none of the trials that tax the patience of humanity, can be counted as outside the range of God's care. There is not a corner from which Christ is to be excluded, no common concern, no detail of human affairs, but what God in Christ has shown his relationship to it. It is for us to investigate Christ's answer to each question, to obey whenever and wherever the answer is clear. That is the way of righteous peace, of justice among nations, of reconstruction, of the building up of the kingdom of God.

NO HURRY

For years he had been terribly henpecked. One morning at breakfast he said to his wife, "My dear, I had a queer dream last night. I thought I saw another man running off with you."

"Indeed!" said the wife. "And what did you say to him?"

"Oh," he answered, "I asked him why he was running."
